This book is Kama Sutra: Your Desire of Love Making with the best essential Kama Sutra love Making Techniques, Ancient, Modern Touch! (Kama Sutra Series Book 1) " contains great information about satisfying your partners in engaging an ultimate relationship. It emphasizes the importance of sex with your partner. The author has also provided great techniques and essential tips on how to spice up your relationship from ancient and modern touch and also discover the techniques of love making and etc. Overall, it was an excellent read for me!

Kama Sutra is not all about sex and the positions corresponding to it. Have a better understanding that sex is an essential part of a couple's relationship. With the hustle and bustle of our daily lives nowadays sometimes couples treat sex as a routine. Some are even in a hurry to finish the act. With this book, it could enhance and improve or probably save your relationship. Ignite that passion again and learn the art of ancient seduction and the love making techniques that have been passed on by couples throughout the centuries.

In this book we could read some proven steps and strategies on how to become truly fulfilled in your relationship with your significant other. There are a lot of Kama Sutra books out there but each one of them has different concept or the way it convey the readers. This book had showed me how to make my desire put it into action if I do my love making to my partner. Modern touch is a new thing I learn!

This book is a really great read if you're looking for something new to do with your partner, or maybe even yourself. It also has a bunch of tips to make Kama Sutra enjoyable for you and your partner. I think that anyone who reads this book will definitely become a better lover, on one level or another. It was incredible.

Awesome! This book pays a lot of importance on the fun element of sex. That is what converts a rather boring, mechanical session to something that a couple looks forward to. Try all the experimenting you want. If the fun element is missing, there's little that you can do. Read this book and feel like you were an expert! The benefits of the various Kama Sutra positions have been found

to give couples that extra bit of satisfaction and also avert many troubles that may be physical, psychological or physiological. Performing these positions also help in keeping you healthy and fit. Really worth recommending!

Kama Sutra is a guide that has been around for thousands of years. And all I can say about this book is Wow! This book was amazing! It has a great brief introduction to what Kama Sutra is. It also added that different sex positions have different effects. While you could have sex in the same way every time, you're more likely to find what really hits the spot if you experiment a little. These positions are all easy to do and have their own perks. If you want to spice things up in the bedroom here is the perfect book with the best sex positions to try. This book is applicable to both partner.

This is a surprisingly detailed book and not quite what I expected..but that's not a bad thing! When we think of the karma sutra, we tend to think of a sex guide, in the sense of a modern love making manual, much in the same vein as a how to swim guide or something like that. However, this book, which is the first part in a series provides an overview and a background to the karma sutra, rather than a bunch of techniques, which apparently comes with volume two and three. If you just want the techniques go and buy volume two and three. What volume one is all about is context and this is important, because the karma sutra is not just another how to guide, rather it was written many hundreds of years ago, when opinions about sex were very different from what they are today/ So what's nice with this book is that it provides an intelligent, well thought out overview of the various ideas, which are presented in this book. The karma sutra is as much a book about how to have a good relationship as it is a book about how to have good sex. Also it gives us a look into ancient India, where everything, including sex, is part of a holistic viewpoint of life. So it is very interesting. I cannot fault this book - the author obviously did a lot of research and managed to provide a succinct overview of a detailed and complex book in this volume. I'm looking forward to reading the subsequent volumes. If you want an overview of a very different and holistic approach to relationships and sex then take a look at this book!

First of all, I needed to commend Benson Hiles for the very creative book cover. *applause* Anyway, the content of the book was as good as the book cover. Kama sutra sure is very pleasurable. It's a great way to spice up one's intimate relationship with his/her partner. And I have to say, that they're pretty effective.
