In The Footsteps Of The Prophet: Lessons From The Life Of Muhammad

Synopsis

Named by Time magazine as one of the 100 most important innovators of the century, Tariq Ramadan is a leading Muslim scholar, with a large following especially among young European and American Muslims. Now, in his first book written for a wide audience, he offers a marvelous biography of the Prophet Muhammad, one that highlights the spiritual and ethical teachings of one of the most influential figures in human history. *In the Footsteps of the Prophet* is a fresh and perceptive look at Muhammad, capturing a life that was often eventful, gripping, and highly charged. Ramadan provides both an intimate portrait of a man who was shy, kind, but determined, as well as a dramatic chronicle of a leader who launched a great religion and inspired a vast empire. More important, Ramadan presents the main events of the Prophet's life in a way that highlights his spiritual and ethical teachings. The book underscores the significance of the Prophet's example for some of today's most controversial issues, such as the treatment of the poor, the role of women, Islamic criminal punishments, war, racism, and relations with other religions. Selecting those facts and stories from which we can draw a profound and vivid spiritual picture, the author asks how can the Prophet's life remain -- or become again -- an example, a model, and an inspiration? And how can Muslims move from formalism -- a fixation on ritual -- toward a committed spiritual and social presence? In this thoughtful and engaging biography, Ramadan offers Muslims a new understanding of Muhammad's life and he introduces non-Muslims not just to the story of the Prophet, but to the spiritual and ethical riches of Islam.

This biography of Prophet Muhammad can be called a "spiritual biography" that tells the story of a life but emphasizes decisions, revelations, and the spiritual and emotional lessons therein. Emerick's biography of the Prophet and that by Karen Armstrong are good, this is better. Incidentally, it hints at the paranoia of those in government who cancelled the author's visa while he was en route to teach at Notre Dame University. (I taught there briefly and can assure you that it is not a hot bed of radicalism.) The position of women, place of jihad, role of law, and relations with non-Muslims are totally different than the media caricatures and also different from some Fundamentalist politicization and corruptions. Under duress and attack we see un-Islamic practices claiming to be Fundamental (the Western media is more than happy to second that claim). One needs to know that the Shari'a is partly a product, close to two centuries later, that evolved to empower scholarly elite promoting its own interests by which time patriarchal elements had also degraded practice regarding women some - although women had right of inheritance not much available in the West until the 19th and 20th centuries except for royalty.. Also, the most infamous practices predated Islam in much of the Mediterranean - the stoning of adulterers was now much harder to prove than before. It is reading for those who have an open mind and would learn more, for those who aren't quite sure what to believe after the pervasive toxic climate of criticism. Christians and Jews are very much at a disadvantage in that Muslims know far more about their faiths naturally from reading the Qur'an than they would know without significant effort.
