As an avid and humble student of Islamic teachings for many years who has sat at the feet of various Traditional scholars of Islamic law (fiqh), Quranic exegesis (tafsir) and Prophetic traditions (hadith) as well as Islamic spirituality (tassawuf) and learned from them intermittently, I fully endorse the *Study Qur'an*. In this process I have read various Commentaries of the Qur'an in English (from

Mawdudi's Tafisr, to Ma'ariful Qur'an, to Allamah Tabatabai's al-Mizan, to Yusuf Ali, etc). After reading over 300 pages of this commentary already, I have found that this Study Qur'an is the best Tafisr/Commentary to date in the English language. And this for the following reasons: It is a very eloquent English translation of the Qur'an which, comparable to the eloquence of the King James Version of the Bible. It includes diverse sources of commentary, from commentary traditions within Islamic civilization, namely Sunni, Shiite commentaries from authorities ranging from those who were legalists (fuqaha), theologians, (mutakalimun), philologists, as well as spiritual authorities or saints. It is of no wonder that such a vast array of deeply informed perspectives (both mainstream, popular, and otherwise) took about 10 years to collate and integrate into one volume of commentary. The Study Quran is a monumental intellectual achievement in Islamic studies in the West, and truly anywhere in the world! To be sure, no single commentary on the Qur'an, even a commentary which brings diverse levels of Islamic references and commentaries to its own commentary, can be fully complete. That is not possible when considering the infinite wisdom contained in the eternal Word of God as manifested in the Qur'an for those who believe in it.

An epic work concordant with its celestial origins, the Study Quran in panoramic fashion reflects the ever present message of the Sacred as penned by its traditional authorities only to be rendered imaginable by a vision of Islam as encompassing as Dr. Nasr's to mirror the infinite depth in finite breadth. This work certainly raises the bar for religious literacy, understanding, and challenges parochial mindsets and interpretations. Dr. Nasr and his editorial team are to be congratulated on this historic achievement in fulfilling the promise of the pertinency of Islam's tradition for not only advancing a metric for Quranic scholarship, but revealing the timeless message of the Quran in a polarized time riddled with misunderstandings, all the while widening the scope of Islam's transcendent and universal vista. After having read a couple hundred of pages: This review is being written after having read over a couple hundred pages of The Study Quran; and there is little doubt in my mind, being an amateur, in the etymological sense of the word, and observer of scholarship in Islamic studies for over past two decades, and gauging the pulse of Muslims in America, that this is the most important study of the Quran in the western hemisphere. Granted, there other valuable translations of the Quran, and works of commentary on the Quran, but what distinguishes this massive, yet manageable, tome "over two-thousand pages, and over a million words" is the spectrum of pre-modern commentaries and those that continue that tradition into the modern period.
