Synopsis

How to Build Your Self Esteem - How to Be Happy Being Yourself This book is about acceptance, forgiveness, and love. Letting go of the things that you dislike about yourself and focusing on the positive things in your life. Learning to deal with your depression and anxiety, while rebuilding your self-esteem in the process is what we hope to accomplish. This book will give you a step by step guide of things you can do to improve the way you feel about yourself and be happy. Barbara Gain, the author, writes in such a way that you won't be wasting your time sifting through a bunch of useless content. You are going to get straightforward helpful tips to help you overcome depression and start loving yourself.

A Few Tips From The Book How to Build Your Self-Esteem and Love Yourself

Learning to love yourself is a process that takes dedication to ensure your happiness and fulfillment in life. Living life hating the person that you are is not living at all. There may have been things that have happened in your past that have brought you to this place of not liking the person you are today. This book will give you 12 steps to follow to rebuild your self-esteem and deal with your depression and anxiety.

Here are the 12 Steps to Loving Yourself:

- Step 1: Written Exercise
- Personality Likes and Dislikes
- Step 2: Journaling
- Step 3: Finding Support
- Step 4: Staying Healthy and Exercising
- Step 5: Take Care of Your Appearance
- Step 6: Get Back to the Things You Enjoy Doing
- Step 7: Dream Book
- Step 8: Relaxation
- Step 9: Make Your Home a Happy Environment
- Step 10: Help Someone in Need
- Step 11: Consider Adopting a Pet
- Step 12: Cut Ties With the Negativity in Your Life

Here is a preview of what you will get through working with these 12 steps

Step 1: For this first step you will need either a notebook or a clean sheet of paper to write on. In this section you will be doing an exercise that entails writing down your personality likes and dislikes, and what you wish to accomplish in the future. While doing this you will get a clear picture in your mind of why you have chosen to purchase this book and what you wish to accomplish from reading it. After this step you will have 4 separate lists that you will work with each day. I would like you to have at least 7 things with in each list.

Step 3: Finding support is important, feelings of depression, low self-esteem and anxiety are not signs of weakness they are issues that need to be dealt with so that you can feel better. It is time to take care of yourself , swallow your pride and let others support you in your journey.

Step 6: You may be in the routine of your everyday life and have forgotten to take time for yourself. What do you enjoy doing? Try something that you have always wanted to do but were scared to. Facing your fears and accomplishing a feat in your life can help boost your confidence and help you feel more secure with the person you are. Get out there and make an effort to find happiness in this world there are so many great things to experience.

Step 10: Helping someone else is a great way to give back while also helping you boost your self-esteem and confidence.

When you help others they feel grateful and appreciative of you, experiencing someone else appreciating you may help you appreciate yourself as well. As you can see after reading this book you will have the tools to overcome your anxiety and depression. You will gain more confidence and self-esteem, while learning to love yourself in the process. Love Yourself is a self discovery process which each one of us should undergo to find ourselves again. Though a simple guide, these twelve steps helps us to make important, subtle changes in our day to day lives with small, easy to follow activities. I have begun my journaling already and I see the difference and clarity, it has brought about in my life. Appreciate the author providing a lot of useful links to refer and get more help which will make a difference in the long run surely. Go get "Love Yourself " to fall in love with yourself all over again!

"Love Yourself" has helped build my self-esteem and I feel much more confident after reading this book. This book is well written and the steps are easy to follow. I would recommend this book to anyone looking to find happiness in their life.

I've been working on improving myself over the last year and being able to forgive is so difficult! This book really did a great job of explaining how to not only forgive but really find yourself and love who you are. We are all unique and we need to embrace our unique selves in order to love ourselves. When we love ourselves we are going to have a much more enjoyable life. Glad I found this book and will be passing it along to friends and family.

I particularly like the sections on volunteering, I think that so many people are experiencing true happiness in giving, and this might help others to better understand that. This book covers a full range of topics from acceptance and forgiveness, to setting goals and attaining them through journaling and note taking. They may seem basic, but few people realize that these fundamental things in life are what separate the good from the great achievers. A person who writes down what they need to do later in the day frees their mind to focus on the present, while a person who does not, continues to keep the issue on the forefront of their mind all day causing unnecessary stress that they likely do not even know they are causing themselves. I recommend this book for anyone who wants a basic idea on how to get their life together and head out on a more positive road.

I really enjoyed reading this book. If you feel you are lacking self-confidence, you need to read this book and apply the tips and strategies the author presents throughout the book. Barbara Gain explains clearly what is self-esteem and confidence, why it so important to have, what factors affect self-esteem and confidence, how you rebuilt and how confidence will make us live happy fulfilling lives. I especially liked the chapter on rebuilding your self-esteem and confidence because it has a step-by-step approach to do this. I learned lots of strategies like find somebody to be your mirror, externalize your negativity, apply a double "standard" and many more. The book is well written and well worth reading for anyone wanting to improve their self-esteem and confidence to lead a happy life. Well done!

I have struggled with self-confidence my entire life and whenever I come across a promising-looking self-help book, I always grab it. Many of them are the same--ridiculous advice like "just think more positively." This book is different, I'm happy to report. Practical exercises and tips that actually make

a difference. The ones I've put into practice so far have definitely given me a boost. Highly recommended.

I am a person, how confident, loves his life and enjoys his concentration. But, I too sometimes sink into pessimism. Recently, because of my job, I was exposed to criticism, that hurt me and my self-esteem. This wonderful book, gave me a lot of forces, ideas and ways to handle the situation. That's it, from now on, I keep this book close, close to me!

Short and simple read with easy steps to having you love yourself in no time! I liked the idea of journaling every day and focusing mostly on the positive things about your day to help re-train your brain. I think I will use the dream book idea as well and write out my goals and dreams consistently.
