# How To Save Your Marriage - When Your Spouse Doesn't Want To (Growing In Love For Life Series Book 7)

## Synopsis

Are you feeling desperate because you want to save your marriage - but your spouse doesn't want to? Perhaps they are involved with someone else or have simply had enough. Don't despair! There IS a way to get them to come back to you. In this volume of the acclaimed "Growing in Love for Life" series, marriage and relationship coach Liam Naden will show you:- the 5 things you must NOT do if you want your spouse to stay. If you are doing ANY these it is very likely that you will drive them away completely.- the 7 steps you MUST take to ensure they want to stay with you and work on your marriage- how to get your spouse back if they have already left or are in another relationship- how to get your spouse to find you irresistibly attractive so that they want to be with you more than anyone else- how to start healing the hurt in your marriage and rebuild trust and intimacy again and much more. There is nothing worse than watching your spouse leave you and feeling helpless to stop them. But it doesn't have to be that way. But by doing the RIGHT things, you can get your husband or wife to change the way they feel about you and your marriage. This book will show you how to do that. Read this book, apply the steps and save your marriage today.

## Customer Reviews

I have been working on repairing a marriage in which my spouse has stated he is done and punctuated that with an affair. I am not ready to give up and have been seeing an individual counselor as well as going to couples counselling. I had already arrived at many of the suggestions this book makes, but it gave me affirmation that I am on the right track. This week he told me he is not planning on going anywhere just yet. So I have faith that it is going to work, but as the book says: take care of your own issues and don't depend on your partner for all your needs. Then whether it works out in the end or not, I will be ok.

If you want to save your marriage...AND...what you are currently doing is not working, I recommend this book. First of all, it's less expensive than hours with a counselor or therapist. Second, the information inside, although possibly counter-intuitive IS worth giving a shot. Third...you made a commitment to your spouse once upon a time...don't you both deserve one more shot? =)I think that even if you are like me...and your marriage is in a good place, with occasional ups & downs...but still on a good path...you will get some great benefit out of this book. It helps to look at things from a different perspective and try to see what YOU may need to change before expecting your spouse to change. This book offers some free gifts as well as other resources that I feel can really be beneficial to you, your spouse and your marriage. SO worth the small price tag...worth way more, in my opinion.

This is a nice brief on point pamphlet (a series) that bullets key concepts regarding marriage. I found it VITAL that no matter what we must love ourselves and care about ourselves regardless of the outcome. In my case, my spouse committed adultery. Worse, he was horribly abusive leading to my nervous breakdown. Now, the "adultery" is my fault. I've been called unspeakable names. Do I want this in my life? Or am I just afraid to be alone and afraid about the children? This book brings a key point to the forefront. My happiness matters most. The rest will fall where it belongs. It's time to take care of me for once.

I get it, this is just a volume in a series but its portrayed as a book. I felt like How to Save Your Marriage When Your Spouse Doesn't Want To was a lot of baloney. I think the part that got me the most in the What TO Do was "Improve Your Appearance" -- that is a pretty superficial notion that if you just make yourself look better by buying better clothes and spending more time getting ready in the morning that your spouse will jump back into your arms. I also found in the What NOT To Do section highly annoying is "Don't Ask for Counseling" -- I think that this author is just trying to say,

hey you don't need counseling, you just need to buy my book! Counseling is a tried and true area of practice that shows results. Yes, it is true that not every couple responds to counseling but many couples are very successful after a round or two of marriage counseling. I was not impressed with this book at all and did not find it the slightest bit helpful.

succinct and to the point with good information. The only part I might disagree with is the tip "don't suggest marriage counseling" and the unsubstantiated claim that 80% of counseling doesn't work. But the other tips are relevant and good. Yes it's short. Makes it easy to read. Would it seem more worthwhile if you paid \$15 instead of \$3 to re-read the same tips spread out over 300 pages? ;)

This is a shorter read than I was expecting, so its a little overpriced. It would be better to pay \$10-\$15 to get the entire series, or \$1.99 per mini read...Otherwise good. It basically says, decide to save your marriage and do not accept an alternative. It offers a few good constructive things to do to achieve that...~Separated in AZ

Only a fe pages long. Don't waste your money as it is just a repeat, nearly word for word, of his website.

i thought the book had some good principles by which I should operate haven't been separated from my wife it has been a hard time but i think the book of help me do the right things in a difficult time the price was great and being an ebook it was received immediately
