The Book Of Three Circles: Exalted

Synopsis

The Power of Sorcery Is Limitless. In the golden days of the First Age, the Exalted mastered the secrets of sorcery - the art of reshaping Creation itself through Essence and force of will. They conjured diamonds from the air and rode across the sky in burning chariots. But the Age of Splendor is no more, and now, all that remains are fragments of that knowledge. Can you reclaim the heritage of power that is yours? Can You Rise to the Challenge of Mastery? The Book of Three Circles details the intricacies of sorcery in the world of Exalted. The book details over 100 spells from all three circles of magic. It also provides rules and information on Demesnes, Manses, Hearthstones and the creation of spells and magic items, including warstriders - the rare and powerful war machines of the First Age.

Customer Reviews

White wolf claims that this book is out of print for a reason, its because a lot of the material is out-dated with the rules at that point, very flaccid and yeilding. but other then that noise, its a really cool book and it contains alot of very good magics and spells,it also the very first book that took a semi-close look at warstriders so its really cool. its also gives a pretty good look at manses,artifacts,heartstones, and some other crap that escapes my memory. if your a fan of all the first edition exhalted released books, this is a good one, with a lot of cool early exhalted artwork.have fun and happy shoppen

It's true that the core Exalted book was kind of light on the magic - this book makes up for that! The Book of 3 Circles is a combination spell compendium and collection of hearthstones and artifacts. It also presents a good deal of background on creating new spells, artifacts, and Manses. I highly recommend this to any who play Exalted.
