An ARC was given to me for an honest review. This is an exciting action packed read that is well written and will keep your interests from beginning to end. He came back home to clean it up. He never expected to see her still living here. She never expected him to come back here. She hoped he would because she couldn't leave, she has to take care of her mom. Due to the things happening in town it is going to make it difficult for them to come together. He knows she's his mate now and she knows she loves him and only him. Enjoy I did. This is my first read by this author but it will not be my last.

Wow. This story has it all. There is romance, suspense, and lots of action. Marcus is a bear shifter that returns to his home town after being gone for 8 years. Lisa is the girl he left behind with promises of meeting up in New York in the future. When he comes home it is to infiltrate a local motorcycle club but Lisa is still there and ....let's just say it gets interesting. I loved this story. Chase

did an exceptional job as usual. I did receive this story for free in exchange for an honest and unbiased review.

Marcus and Lisa are long time childhood friends. Upon Graduating they promise to catch up with each other at some point in time in New York. But leaving town never works out for Lisa. Eight years later Marcus is back. This was a great read that will keep you interested til the end. It is suspenseful, romantic and well written. I received this book free in exchange for an honest review.

Heart pounding action! This is the first book I have read by Leslie Chase, and let me tell you it won't be the last! Each chapter flows into the next. A sexy romance with shifters and a mystery in the woods! When you have bikers and shifters and small town values add up all the rest and you have one dang good book! Thanks for a very exciting read!!!

Lisa runs the general store in Coldwood, she should have left the town years ago but cant especially not after her mother got in to an accident 4 years ago. When the Serpent motorcycle club ran her off the road after a night of drinking. The person that she never expected to see again has walked back into town. But he is getting mixed up with the local motorcycle gang and Lisa doesn't want to get mixed up with him if he does but her heart has never even up on him. Marcus is back in town to take care of the local gang he has heard that the gang has been untouchable and that people are going missing. What he doesn't expect is to see Lisa still in town he thought that she left years ago, but now he would do anything to protect her. Marcus needs to wrap up his business quickly if not he will lose her for the rest of his life and he cant risk that because he knows that she is his mate. I received a free ARC in exchange for an honest and unbiased review

So... I'm giving this 3 stars for average. Not bad but not awesome. It started off nice enough but somewhere around the way, it got kind of... rushed? And I find I'm very particular about my female main characters. And I just didn't especially like Lisa all that much. Especially near the end. Stupid, stupid woman. Um... and I guess for being a bear shifter, Marcus wasn't really all that alpha to me which is odd. But there you go. Not much to really add here. Just... average. In my opinion.

This book was an ARC Gifted By The Author in exchange for an honest review. This is a great book. It has adventure, action, and romance. Marcus and Lisa are a great and committed couple. The couple meet as children and are reunited years later when a threat comes to the small town where

Lisa still lives and when Marcus returns from a stint in the military. Great plot and action scenes with a HEA and no cliffhangers!
