Howl (Witches & Warlocks Book 4)

Synopsis

Zoe's tired of being lied to. And who can blame her? Lately, everything in her life has boiled down to some sort of conspiracy or hidden truth. Sick of being taken advantage of, she locks herself in the witch's library and starts devouring books on the history of the supernatural world. Knowledge is power, right? That's when things get weird. First, a werewolf asks her to kill a vampire for him using her super-secret ability to blend light and dark magic and undo undeath. When Zoe tells him exactly where he can go, he threatens to reveal her secret " to the vampires who'd be happy to see her dead because of it. Then, pages are ripped out of the books she's studying. Pages that could reveal the truth about her birth. She knows she's being watched. If she doesn't take matters into her own hands the werewolf will make good on his threat and the vampires will kill her the moment the sun sets.

Zoe has been lied to all of her life. She was made to believe she was just an ordinary, unimportant person. In her other books she came to realize that she was a very strong, important witch who

could wield both light and dark magic. Now that one of the "trio" had been killed, it was decided that she and Noah, the second of the trio, should live apart. When she was coming back from the supposed funeral of her friend, Rebecca, she finds out that her parents have told people she was adopted. She was lied to again by the only people she really trusted, her parents. She decides she needs to find out more about the history of witches and maybe something about her real parents. Who can she trust to help her??? Not Noah or Dana, the "Queen of the Witches." She decides she must do it herself. Plus a werewolf approaches her and wants help with a vampire. Zoe feels so alone...who can she trust...She knows she must trust someone, or take a chance of dying.

Zoe is adjusting to some recent and on going changes in her life and of course, she is faces some unexpected challenges. She is trying to work through her own metaphorical demons while facing some very real monsters... And she faces it all in Zoe style! How can you not love this series?! I was provided an advanced copy of this book for my honest review. As you can see, I honestly love this book. And the series as a whole! I highly recommend you read it!

Zoe....poor girl. There has been so much this girl has had to go through that I wish I could jump into the pages and help her. I have to start off my review with stating that I was given this book in exchange for an honest review....so here we go. Zoe Tate...lied too, doesn't know who her parents really are, doesn't know who to trust, doesn't know who to turn to for answers to her multitude of questions - and then there's Noah. We met him back in book #1, and let me say that I've ebook-crushed (is that even a word?!?) on him since the first day. He's kind, sweet, and cares about Zoe. This book by far, has left me craving more and more.... I love the setting, the characters, the consistent storyline. Zoe finds out more than she opted to learn this book - especially about Dana and her parents...but that's not for me to tell you...go out and purchase this book... You will love it as much as I do! Well done R.M. Webb, once again...

Zoe is one amazing young woman. Her growing up years, have all turned out to be a lie. She has to fight everyday to over come the spells put on her, by her very best friend no less, she does not give up though. She is one of the strongest preternatural beings in centuries. I just love her. She has very loving parents, a young man that she loves and loves her, and understands when her past fears rear their heads. Each book in this series just gets better and better. Ms. Webb out does herself with each one. Don't feel that you have things figured out, (I do that) and each time there is a superb twist tossed in, or an unexpected truth reveals. I love it!!!! If you like your coffee hot, and

your suspense books with just the perfect amount of twists and turns at the most unexpected times, then this series is a winner. I was given a copy of HOWL in an exchange for a fair and honest review.

Another great book in the Witches and Warlocks series. After the events of the previous book, Zoe and Noah are trying to live a normal life despite the fact that Luke is dead and Becca's a hybrid of vampire/witch and no one knows how to deal with that. With two of the leaders dead, Daya has to take Barnabe's place in the supernatural council and the vampires are without a leader. But the blissfulness of living a luxurious and common life doesn't last long when a wolf tries to blackmail Zoe into killing a vamp for him or he'll tell everyone about her power to turn vamps human once again. There's a lot of tension in this book and Zoe living alone for the first time makes her doubt her trust in everyone including Noah. But I'm glad that there's so much connection and understanding between them. Becca was a confusing character since she lied to Zoe her entire life, but I like that Zoe tries to understand her problems. There's a big discovery bomb in the end of the book but it doesn't necessarily end in a cliffhanger. But I can't wait to see more of it being developed. Read this with KU
