## Customer Reviews

Let me start this out by saying I have realized that the New Adult genre is one of my least favorite genres. I was not going to let this deter me in my reading, especially since I had grown so fond of this author's work (side note: If you haven't, get The New Agenda series now while you are at it!). Sacred Light blew me out of the water! I would have to say it is easily one of my favorites--if not my favorite--of this genre. The New Adult genre is notorious for having a masculine buff man, a virginal woman (while this book has it, it mocks it in a sense), tons of unnecessary swears, and usually abuse of some kind. I realize this is urban fantasy as well--a genre I love--so it balanced the tropes of each genre really nicely and faced them head on with a unique spin in lieu of giving into every single stereotype that comes along with it. Sacred Light follows our young protagonist Fiona Farrow. She is recently turned twenty-one and upon this age she is expected to follow her destiny to become a Protector of Light. Fiona is a bit stubborn--like her mother and grandmother before her--and would rather pursue a normal career instead of facing her destiny...in spite of a super sexy guide Ezra coming to her to constantly remind her that she needs to stop playing in the human world and to take her destiny serious. Through her journey in this book, Fiona finds out things about her best friend that she is completely shocked by, she uncovers a huge story at her investigative journalist job, and also encounters a super sexy contractor, Asher, who she is determined to lose her virginity to! That and the two of them both have a mutual attraction to each other, but there is something greater that is keeping them apart. No spoilers!

Like a lot of people that use I read the reviews of any book before I buy it. Perhaps ,unlike most people , I always start with the "1 star" reviews and work my way up. That said let me clear up a couple of points before I make my review; 1. I actually bought this book. It was not given to me in exchange for anything. 2. I have never met Simone Pond. 3. I have been a huge fan of Ms. Ponds writing since I read the her 4 book series "The New Agenda" and my reviews of those books clearly show my appreciation of her writing. 4. I NEVER do reviews as a "favor" and I ALWAYS try to be as honest and forthright as possible in all of my reviews! 5. My favorite forms of books are most often in the dystopian/end of the world kind of story . Less favorite to me are the "urban fiction" format. Truth

be told I didn't even know that that genre of fiction even existed before I bought this book. I bought it solely because I like Ponds writing. There , I feel better .Sacred Light is really fun book. If you want plot synopsis they are available in other reviews so I am not going to spend much time with that. The primary characters are either members of the Millennial generation or denizens of a magical world of demons, vampires, fairies etc.. None of which I understand much. There is Fiona our heroine ..just turned 21 and full of sexual tension regarding her virginity and the loss of same. Yep she is a girl and she wants to get laid. Now in most any other book that sort of presumption would be just fine IF it was a guy. Score one for Ms. Pond in allowing her female character to have the same kind of drama in her life .. ya' know like all the guys in all the books . This is a book written , in first person, from a female perspective.
