I love these books, I just finished number seven and I'm sad because now I have to wait, for number eight. These books are so entertaining and you can't put them down. I read this in one sitting and now hear I sit holding my kindle wanting more Smoke.... Hurry up number eight • Please.

This was mostly a book to answer questions, advance the storyline and get some stuff out of the way. I feel like it is a necessary book, but it wasn't really a complete adventure on it's own. You will be lost on some stuff, if you don't read it. So, read it.

This series captivated me from the first book. I got the first in the series free and bought the rest. I liked the characters and their interactions, and the development was good. The stories were exciting and suspenseful, and I enjoyed all of them.

I'm reading The Supernatural Bounty Hunter series. They're really entertaining. However, the books are too short. They are more like chapters. Also, I think you need a new picture of Smoke or at least give him another hair style.

I completed Book 7 last night and that makes having read all 7 books in less than a week. I am normally a fast reader anyway but these books kept me so interested that I just went from one book immediately into the next book. I think I liked our heroes better in this book than I have in all the previous books. Not that there was anything wrong with them in the other books, itâ TMs just that in this book they have morphed into something even better. Now that they are married it seems as if they are even better as a team. And in this book we find out something about our heroes that we didnâ TMt know before. I suspected something along this line about Smoke but not about Sidney. You will have to read the book to find out â œwhatâ •IIn this story you will find out something that Sid and Smoke discovered about the previous monsters that they foughtâ "so unbelievable! I donâ TMt want to say too much about the story because I donâ TMt want to give anything away and take away your enjoyment. Just know that these books keep getting better and better as you read each one of them. You always discover something new and the action is mostly non-stopped. Suspense is a given in all the stories. I donâ TMt know how I can wait until Oct. for the next book to come outâ "but I guess I will have too!OBTW, even though Sid and Smoke are now married, you still wonâ TMt read any steamy sex scenesâ "just a hint about itâ "which I greatly appreciated!

Very well written with a unique story line. I have remained interested through 7 books. The hero and heroine are in depth characters with strengths and weaknesses. The plot keeps you guessing until the end.

Sid and Smoke are a true power couple. The ride they take you on is always exciting and nail biting. I sure don't want the ride to end anytime soon.

Doesn't measure up. Short skimpy plot. Could of been a good read, needed a lot of details as well as some character development. It is hard to put so many books out so fast and still be engaged in the overall picture.
