# Savage Surrender: A Dire Wolves Mission (The Devil's Dires Book 1)

## Synopsis

There's no escaping a Dire Wolf on the hunt...Feared by even his own kind, Bez of the Dire Wolf shifters knows exactly how to succeed in any battle. Even if that means racking up collateral damage along the way. A simple mission into the swamplands to save a teenage wolf shifter should have been an easy track and retrieval for a man with his training, but nothing comes easy when the fates get involved. In one night, Omega Sariel went from a free, single shewolf to a captive with a teenage girl to watch over and a couple of guards intent on making her life miserable—what little is left of it. Then a soldier with ice in his eyes walks in, and the mating call begins. He's too tough, too harsh, too murderous—but when your life hangs in the balance, a lethal fighter in your corner is better than battling alone. Especially one who isn't afraid to get a little dirty with her. Two kidnapped women, one dangerous soldier unknowingly about to come face-to-face with fate, and a monster set on destroying everything in its path. In the world of the Dire Wolves, a retrieval is a simple mission for the unit of soldiers that make up their pack. But this time, a single glance blows simple right out of the swamp and forces Bez to make his stand alone. One soldier, one fight—one chance at forever. *Savage Surrender* is the lengthened version of a novella originally released in 2015 in the *Masters Of The Hunt* boxset.

## Customer Reviews

There are several good book series out there about the paranormal world of wolf shifters. However, Ellis Leigh's elements of strength, commitment, and dominance, wrapped up in a nice dose of vulnerability, for me, stand out from the rest. In Leigh's latest series, we meet the Dire Wolves - the Ancients I thought to be extinct by most. The Dires are the biggest, baddest, meanest breed of wolf shifter, and seven men remain, having spent millennia fighting side by side. They are a pack unto themselves. Book 1 is Bez's (Beelzebub) story. Someone is kidnapping pack Omegas - rare and powerful female shifters - going as far as decimating entire packs to do it. Called in by Blasius Blaze Zenne, NALB (National Association of the Lycan Brotherhood) president to find the latest taken Omega - the teenager, Angelita, the methodical and relentless Bez is already formulating his plan before he leaves the president's residence. Things go pretty much the way Bez intended until he arrives at the location where the young Omega is being held and finds not one, but TWO captive Omegas. One look at the second Omega, Sariel, and the mating call kicks in. Bez is thrown off his game. Dire Wolves have been alone and unmated for hundreds of years - so long in fact, they figured there were NO mates for them. Now face to face with Sariel, he cannot and will not ignore the mating call. He's still intent on his objective - rescuing the young Omega - but there is no way he's leaving his fated mate behind to an almost certain death once they find Angelita gone. Will Bez compromise his mission? Will it cost him his life and the lives of two Omegas, one his destined mate? The tension is high in this story, because Bez's actions do change the direction of his mission.

Title: Savage Surrender: A Dire Wolves Mission Series: The Devil's Dires Author: Ellis Leigh

Designation: Book One of Series, Full-Length Standalone, No Cliffhanger My Rating: FIVE

DEVILISHLY ENTERTAINING STARS\*\*\*\*\*Wow! Ellis Leigh has outdone herself again with the release of Savage Surrender, the first standalone book in her riveting new The Devil's Dires Series and for me, it was love at first bite! I'm totally smitten with The Devil's Dires! I've been a diehard Ellis Leigh fan for several years and anxiously await each new release. For anyone familiar with Leigh's work, you may be asking yourself: why does Devil's Dires sound familiar. Well, there are actually two reasons. First, Savage Surrender was originally published as part of the Masters of the Hunt Anthology last year but has since been expanded into a more developed and extensive story arc to

introduce Leigh's new The Devil's Dires Series. I purchased the Masters of the Hunt Collection just to read this story and thoroughly enjoyed the original version of Savage Surrender, but this improved, revamped and lengthened adaptation is totally the bomb! And second, the Dire Wolves were first introduced as secondary characters in Leigh's Feral Breed Motorcycle Club Series so we've known of the existence of this select group of men/shifters for quite some time; we just didn't know a whole lot about them other than they acted as the Cleaners for the NALB (North American Lycan Brotherhood). But as always, I digress so let's talk about the mechanics of this book. The story is exciting, imaginative, compelling, fast paced, action packed, sexy, romantic and exceptionally well crafted and edited.
