I absolutely loved this holiday novella! We have Claire getting her butt out of a very unhealthy relationship and into Eeven's arms. We have more babies, the creation of a "new game" and a holiday, No Poison Day, and a sneak peek into a romance I am really looking forward to, that of Haeden and Josie, they are such great characters. I do have a question(or two) maybe it's a bit of a suggestion. Not that I am a writer, or trying to tell the author what to do, since she obviously knows her stuff. So, here goes. Why don't they spend the brutal season at the coast where it is not so brutal? Or, even go there for hunting more often? the added shellfish/ fish to their diet would seem

to be wanted/ needed since there is only so much choice for food on an ice planet. Maybe a singles vacation? After being there for so long, Claire didn't even really know Eeven, so a singles gathering would be interesting. I'm sure many will tell me to hush and let the author write the stories, but I can't stop thinking about the coastal area of the planet now that we have been given a peek into what it is like. Anywhoo, I highly recommend this series. Each and every story is well told and the characters are fully developed. An enjoyable read from start to finish.

Overall Rating: 4.5 Rockinâ™ âˆ™...âˆ™...âˆ™...âˆ™...âˆ™†Ice Planet Holiday, by Ruby Dixon continues with the day to day lives of the couples we adore and want to know better from the previous books! Itâ™s that time of year on Not-Hoth, the frozen ice planet where humans and aliens alike need a holiday gathering to lift their spirits after the long brutal season. Georgie and Vektal lead the way for a hodgepodge holiday celebration that soon becomes known as the âœNo Poison Dayâ• because the Earth tradition of using mistletoe to gain a favor from your significant other is misunderstood by the aliens. Itâ™s a comical misinterpretation that will have you in stitches and rolling with laughter. Both clans are brought back together for the holiday with gift giving, feasting and new games! That bring out the competitive nature in a few. Some of the women have their bundles of joy and love is in the air for a new unknown couple. This story is a blissfully happy read. Ruby Dixonâ™s Ice Planet Barbarians series is a must read for me and my growing library.

A brief guide to getting through the "No Poison Day" season...1. Give, throw or generally leave in her vicinity; herbs and other various plants that are not poisonous. This shows a female you care enough not to kill her and she will kiss you.2. All the males (and any interested females) strip down to the waist and run around in a hot sweaty display of muscular soccer skills for the enjoyment of onlookers.3. Males run at each other in a grappling move like elk, ramming their horns together in a display of strength to create loud booming noises instead of bells.4. Decorate a desolate fluffy topped pink tree with colorful dyed seeds.5. Make secretive gifts to show your affection for others.6. Eat the first sweets known to Not-Hoth. I thought I'd be a bit disappointed with a short novella in one of my current favorite series, that it would just leave me wanting more but was pleasantly surprised. I would of course love to have had more details of Claire's relationship and a male point of view but for a new story to have been released so soon after Barbarian Mine, I'll make allowances. I enjoyed the details of everyday life in the tribe and revisiting couples from past books. As usual I'm charmed by the way the barbarians are confused with whatever the human women are trying to explain. If I was put on the spot and asked to explain why mistletoe is specifically used to be able to kiss

someone at Christmas, without google, I would flounder as well. Trying to make sense of most of what humans do is ridiculous if you think about it. I just spent 4 entire days assembling and decorating a huge fake tree that I'll have to turn around and disassemble next month. Explain that to a primitive cave hunter warrior type and see what they make of it. It's obvious that eventually Haeden and Josie will end up together but I admit I don't like them as a couple. I'm hoping for a twist that puts them both with other people.

This was a cute, sweet treat for fans of this series. It's quick but fun and has lots of hawl-day spirit! Food, fun, family, football, and maybe some tension or hurt feelings (I mean, what's the holidays without some head-butting?), just like on Earth, and now on Not-Hoth with our favorite blue aliens. A sweet and sexy catch up with the characters, touching base again, and seeing how some things may go in the future.

I have loved every single story in this series and this one was no exception. Laughter, hot sexy times, babies, love, and more laughter as those blue alien hunks try and figure out what their human mates are wanting to celebrate. Loved catching up with everyone and I am looking forward to the next in this wonderfully awesome series.

I figured why quit before I get to the Christmas Special. It's a rather quick read, but it felt like about the length of the first one. For some reason Goodreads lists it as book 4.5, but says it's book 5, and that makes more sense. It was fun seeing the women trying to bring the holiday spirit to the tribe, and trying to explain customs that really just have no explanation. This one's rotating view is between the women, and we get to see how they're coming along on the planet, and dealing with their babies, and pregnancy, and their sort of marriages which is really sweet. However, it is mainly about Claire, which we have seen before, mainly in the 3rd book when Kira tried to talk to her about her relationship with Bek. It's nice to see what her deal was, and it was a good switch up on Dixon's part to show that not all the women are being treated like princesses. Claire's in a situation a lot of people can relate to to some degree, being trapped in a relationship and unsure how to get out, and it was a good development for the series. Though now I just hope Dixon will tell us what's up with Josie and Haeden, because I know that would just be a great story to read.
