"Glamoury: Magic of the Celtic Green World" by Steve Blamires is one of the best resources in print when you're beginning Irish Celtic magick, but only if you are truly serious about this. This isn't a "fluff" book. It's a thorough summary of Irish Celtic magickal traditions in the context of real, documented history. This is something that sets Irish Celtic (and pre-Celtic) traditions apart from the others: Ireland was not conquered by the Romans, so its oral and written history remain intact and undiluted. The Tuatha De Danann aren't fanciful mythology but real, documented beings--"gods and not gods"--who are still a rich (and active) part of Irish traditions. Fluff and fantasy are fine. In fact, I often recommend choosing the fun path to faerie and Celtic magick because it is so beautiful and inspiring. However, when you want to roll your sleeves up and get into what we know has been real in Irish magickal traditions for thousands of years, there is no better starting point than "Glamoury: Magic of the Celtic Green World." Mr. Blamires' researching is impressive, and he quotes many important Irish historical sources. Few neo-Celtic authors have Mr. Blamires' academic background, which is why--in my opinion--this book is head-and-shoulders above most lighter treatments of this subject. "Glamoury: Magic of the Celtic Green World" provides a complete array of other resources, too, including maps, biographies, pronunciation guides. Mr. Blamires offers insightful discussions about the contexts of these stories, as well as the points that are disputed or open to personal interpretation. In "Glamoury: Magic of the Celtic Green World," Mr.
