The Global Sexual Revolution: Destruction Of Freedom In The Name Of Freedom

Synopsis

The core of the global cultural revolution is the deliberate confusion of sexual norms. It is the culmination of a metaphysical revolution as well—a shifting of the fundamental ground upon which we stand and build a culture. Instead of desire being subjected to natural, social, moral, and transcendent orders, the identity of man and woman is dissolved, and free rein given to the maximum fulfillment of polymorphous urges, with no ultimate purpose or meaning. Gabriele Kuby surveys gender ideology and LGBT demands, the devastating effects of pornography and sex-education, attacks on freedom of speech and religion, the corruption of language, and much more. From the movement's trailblazers to the post-Obergefell landscape, she documents in meticulous detail how the tentacles of a budding totalitarian regime are slowly gripping the world in an insidious stranglehold. Here on full display are the re-education techniques of the new permanent revolution, which has migrated from politics and economics to sex. Kuby's courageous work is a call to action for all well-meaning people to redouble their efforts to preserve freedom of religion, freedom of speech, and the freedom of parents to educate their children according to their own beliefs. "Mrs. Kuby is a brave warrior against ideologies that ultimately result in the destruction of man." "POPE BENEDICT XVI" "As the carnage of untrammelled sexual license piles up in cultures that have embraced sexual revolutionary ideology, we need the kind of sober and thoughtful analysis Gabriele Kuby provides. Her work will help readers understand that false visions of freedom are highways to slavery, and that true freedom is to be found in self-mastery and virtue." "ROBERT P. GEORGE" "Gabriele Kuby maps the topography of horror that sex unleashed from the moral order visits upon any society that allows it. She also offers a strong, much-needed dose of moral realism that offers a way out of an otherwise totalitarian result." "ROBERT R. REILLY

Professor Kuby has done a very careful and detailed compilation of the vagaries of the sexual disorder of our times. How has it happened that centuries of human sexual behavior understood as conjugal between man and women leading to children has suddenly been displaced by sexuality accepted as orgasmic gratification alone? Her strategy is to demonstrate a philosophical progression from the French Enlightenment, visiting all the usual suspects, to the present state of sexual chaos. From Natural Law (Aristotle and Aquinas) through Nietzsche and Marx to the feminists such as Judith Butler and many more. The second part of her project is to show that traditional views of sexuality have not only been upended but that the powerful agencies who rule us are now imposing by force of law and social censure the new sexuality. These agencies are government, the rock music industry, Hollywood and so forth. Legal sanctions are increasingly used to force conformity to the new sexuality. Professor Kuby defends a traditional view of sexuality: The family is the foundation of society and thus necessary for the continuation of the race and for whatever cultural shapes are possible. Uncontrolled and deviant sexual behavior--Eros unchained--is a threat to the family and to society. All cultures have understood this and have instituted by law and custom restraints to protect the family. These have now been thrown over. With traditional philosophy, she argues that absolute autonomy is a false and dangerous conception of freedom, one which has led to the present morass. Such "freedom is, in fact, un-freedom from which we are reaping the consequences.

This German-language work has now been translated into English. It offers fascinating insights into how and why western societies have changed so much in just the last fifty years, and changed for the worse. WARNING: The contents are sobering, and do not make pleasant bedtime

reading. Author Gabriele Kubly considers the agendas of the Global Sexual Revolution as driven by various goals. (pp. 230-231). These include a desire for: 1). Rootless people that can be manipulated by increasingly-globalist governments; 2). Reduction in global population growth; 3). Helping Western nations sink into a demographic winter; 4). The elimination of religion, especially Christianity; and 5). The removal of heterosexual normativity, which some desperately rebel against. SEXUAL REPRESSION? A standard trope of the sexual revolution is that traditional sexual morality is repressive and that sexual permissiveness is liberating. Precisely the opposite is true. Author Gabriele Kubly (p. 10) cites the 1934 work of anthropologist J. D. Unwin, SEX AND CULTURE. She comments on it, "The results in a nutshell: the greater the sexual restrictions, the higher the cultural level; the fewer the sexual restrictions, the lower the cultural level. If one looks at the development of our society, it appears this principle is being confirmed once more." A TOP-DOWN REVOLUTION: BY PROPAGANDA Kubly stresses the fact that the new Global Sexual Revolution is being incrementally imposed by a relatively small group of cultural elites. (p. 49). It is based in part on the deception and desensitization of the masses, and partly by force. As an example of both, she elaborates on the content of the ACTIVISTS' GUIDE TO THE YOGYAKARTA PRINCIPLES (AG). (p. 79).
