## Customer Reviews

The second volume to Dc Adventures Heroes & Villians expansion pack is what you would expect from a good expansion pack; it expands the game. Sorry that was a bit facicious. Overall it works for palyers who what to include some decent villians (and some obscure ones) into the mix. Some fun new heroes are included as well. Some of the ratings for the characters can seem a bit arbitrary but then again this is a RPG game. Overall I'm satisfied with this product.

Despite being incomplete (as is only to be expected, it would be very difficult to include all the characters who have appeared in more than 75 years of comics in only 2 or 3 volumes), it is an

excellent reference book for playing in the DCU.

This is an excellent follow up to volume 1 and really has added to my DC adventures game! I love it!

This is a great resource for DC characters in general. You start up with Lady Shiva and end up with Victor Zsasz. Also, listings for generic minions, undead, demons and other types to throw at your characters. Also - Krypto!
