## Synopsis

He came to kill, but stayed to claim me. When the captain throws me in the brig, it feels like things can't get any worse. But they can. A deadly alien assassin slaughters everyone on our ship, but spares me. If I want to survive, I'll have to accept this brutal alien's protection. He's frustrating, insufferable, and never admits he's wrong. And the worst part? He says he wants to kill all humans. But he protects me, fiercely and without question. His body is a deadly weapon, and he's vicious and unrelenting. So why has he spared me? And why does he keep looking at me with those jade green eyes and that smug grin? Falling for this cocky alien killer may just be the one thing that saves me, but who can save me from him? Marauder Fenrir is the second book in the Mating Wars series, it features steamy sex, thrilling battles in space and on Mars, and plenty of romance. All books in this rock-hard science fiction series can be read as standalones, there are no cliffhangers, and happily ever afters are guaranteed!

Title: Marauder Fenrir Series: Mating Wars Designation: Book Two, Novella, Standalone, No

Cliffhanger Author: Aya Morningstar My Rating: Four Delightfully Entertaining Stars\*\*\*\*I'm completely

addicted to anything paranormal, adore science fiction and totally love romance but give me all three in one great story and I'm in heaven! And that's exactly what Aya Morningstar has done....and done it well. Marauder Fenrir is the second release in the Mating Wars series and can be read as a standalone. However, since there is an underlying interconnected storyarc with carry over characters that runs throughout the series, I highly recommend reading all the books of the series in order of their release. I found the story to be cute, well crafted, fast paced and easy to follow with quite a few giggles and a tug at your heartstrings happy ending. The narrative is beautifully written in the first person with his and her perspectives. The dialogue is snappy, well executed and flows smoothly. I fell head over heels for the two protagonists of the story, handsome purple alien Marauder bear shifter Fenrir and smart, brave, beautiful human ship turret gunner Fiona. I felt they complemented each other brilliantly and truly enjoyed their banter and interaction. I was instantly smitten with the gruff conceited assassin Fenrir who totally cracked me up. He was so full of himself but totally clueless about human women and every time he opened his mouth, he put his huge alien foot in it. No one can accuse Fenrir of being a charmer but the big purple lug does grow on you. And Fiona, who as it turns out is Aura's sister from Book One, is an absolute delight. She's courageous, snarky, smart and resourceful which all comes as quite a surprise to Fenrir who is your typical alien male chauvinist.

Note: Book 2 of 3 so far (more on the way, at least a 4th) and does NOT have a cliff hanger ending and has a HEA  
Author: Aya Morningstar  
This is my review of Marauder Fenrir, book 2 in Marauder Wars Series. I got this second book in the series free through purchase on . This is the continuation of a great series and it can be read as a standalone. Each of the first 2 books connect to each other but both can be read as a standalone because each has its ending . Be warned though you will not want to stop with just this one book and I am ready to find out what happens in book 3 with Aegus. This is the continuation of the story the marauders. Book 1 has Cygnus and finding his mates and coming to trust in Aegus and his true knowledge that Marauder-Human pairings will create what is known as the true Seraphin form. Marauders are constantly on the run because of the fact that once they mate with a particular species the children from that pairing are unable to mate with any of the original marauders or from the species that the marauders mated with. As a result they are constantly on the move from planet to planet taking it over, taking mates, reproducing, and then moving on to the next planet to keep their species alive. Aegus knew (back in book 1) that Humans were the key to stopping this but did not want it to happen by invasion but instead wanted his race to join with

humans and co-mingle without war and deaths. The humans have since taken over the planets of Mars and Venus and all 3 planets are split between accepting what Aegus says about his followers wanting to exist peacefully together and between the fact that the other half want to destroy them.
