Customer Reviews

Another good story with a good pace by Mr. Pike. Well written and not filled with fluff or rambling diatribes that some author's call good writing. It always bothers me when authors, in the middle of a fight, will interrupt the action to reveal a couple pages of thoughts by the characters. Kind of like:

"John jumped to grab the gun that was leveled at his face. He grew up a poor boy who was misunderstood....." Then, two pages of psychoanalysis and memories later, "The bullet grazed his head..." I like that it's not filled with preaching on the merits of prepping. Seems like some prepper's are determined to prove they are not wacky and go overboard in their defense by going on ad nauseum about all the things they would store away and how smart they were to prepare for the worst while pointing out how miserable the naysayers had become. I've always found that unnecessary because when folks see what life would be like if it were the end of the world as we know it, then they will see the wisdom of being prepared -- although I personally feel that filling a bomb shelter full of canned goods is a wee-bit over the top. I also like the usage and accuracy regarding firearms but Mr. Pike doesn't go overboard by filling pages of details on different types of guns like some who think they were writing for Janes. Also, it is unfortunate that those who do not see the danger to our 2nd amendment rights don't tend to read these kind of books. Sadly, it will take a catastrophic event in their own lives for them to see the error of their ways but by then it will be too late. On the down side, it was short but if author's crank them out quickly like Mr. Pike has his first two books, I'll take that trade-off any day.
