This was one of the most inspiring books I've read in years. You can feel the calming voice of the author as she guides you through relaxation and meditation with angels. I felt immediate release of all negativity surrounding me. Her ability to take the reader through guided intention setting and the healing energy of angels is poetic. My heart sings as I am wrapped in angel wings and experience total joy.

Melanie Beckler's book is surprising. It has a beautiful upliftment that one needs everyday. It is a constant reminder of our source, of the light we have within that so easily dims when we are in our everyday world. Reading it is like a daily talk with God or a meditation that brings us to our soul intent. It isn't just a light read about angels. It is truly messages from the messengers, the ones that are here to help, only by a simple request. Ask and you shall receive. Don't take it lightly. It is insightful and loaded with energy beyond the words!

This wonderful book by Melanie with the profound messages from the Angels has made the soul within me fly with Love, with Hope, with a spiritual ecstasy that I will carry with me forever. Kudos to Melanie and her unique ability to channel the beautiful Angels.

This book came to me at a time when I really needed it. It will put you on the right path of your spiritual journey. I recommend this book to all.

I've been listening to Melanie's guided messages for about two years now, and they are extremely helpful (an understatement) in times of distress and confusion, and this book is no different. The messages are powerful, of course, and uplifting, but there is something unique about Melanie

herself, the tone in which she speaks, her energetic signature, and her love for humanity, that combine to make the messages "better than". In other words, her "filter" seems to improve the information that she channels, and makes it better than it might otherwise be had it been brought through by anyone else. To make the experience even better, I recommend listening to her mp3's on her website, and reading this book, both, so that when you read the book, you hear her voice in your head, instead of just seeing words on the page. That makes it more powerful, and uplifting. The bottom line is this book will help you immensely if you need support, guidance encouragement, and some "wind in your sails". Definitely a 5 star book and I am looking forward to more from her!

I really loved this book! I am aware that every thing is energy, every thing, even written and spoke words. This book brings you to a point of connection that lifts your energy frequency so high that you can lift up out of your body if this is what you wish to do! I love going up to the Universe and hanging with the Angels! With the energy shift of our earth, things can seem unsettling and to some frightful. Melanie's channeled messages contained in this book, well, it brings light to your life, helps you ground and center yourself in your heart and it is in your heart that you just know that everything will be ok, better than ok, it is how it is supposed to be. These messages are an upliftment to the soul! Thank you Melanie for your service as a channel, as the Angels always say, you are so dearly loved!

As I know how everything is sooo connected, Angel Messages demonstrates that fact! If you want to feel supported and to be inspired to continue to walk your Godly walk, enjoy this opportunity to know what you know... these are some of my guys! Thanks Mel! Infinite blessings... Love to Love, Absolutely

I very much enjoyed reading Melanie's book on Angel messages. This book is comforting and supporting. I will indeed, read and re-read often for reassurance, blessings, and self improvement. Thank you Melanie!
