Embraced By The Light

Synopsis

On the night of November 19, 1973, following surgery, thirty-one-year-old wife and mother Betty J. Eadie died....Â This is her extraordinary story of the events that followed, her astonishing proof of life after physical death. She saw more, perhaps than any other person has seen before and shares her almost photographic recollections of the remarkable details.Â Compelling, inspiring, and infinitely reassuring, her vivid account gives us a glimpse of the peace and unconditional love that awaits us all in the afterlife. More important, Betty's journey offers a simple message that can transform our lives today, showing us our purpose and guiding us to live the way we were meant to live -- joyously, abundantly, and with love. In today's world of violence and uncertainty, the message ofÂ Embraced By The LightÂ comforts troubled hearts and dissipates fear. It creates hope for the future, meaning to life, wholeness and happiness of heart in the abundance of God's love, which transforms every sorrow into joy.

Customer Reviews

Embraced By the Light is one of the most beautiful books on NDE that I have ever read. Betty's amazing journey while she had "died" is truly extraordinary. After reading this book and the 2 books

by Dannion Brinkley, I would have to say that I do not have a fear of dying! Dying is just the start of the next stage of one's life - not something to be feared. Our spirit lives on, and just sheds the physical body. Our society thinks of death and speaking of death as "taboo". Yet Betty shows us that death is beautiful and loving. The love Betty experienced just overwhelms you and her love comes through this book to you. You cannot help but cry. There are many quotes in this book that you will definitely want to write down. This book will definitely change your life in some way and bring great comfort for those you have recently lost a loved one. Betty's life was forever changed because of this experience and her awareness and love of God shines through. It is amazing to me how many of us were raised to think of an angry, vengeful and hurting God, yet this is never seen by those who see God in the NDE. Again, Betty is her own worst judge as she reviews her life - not God or the light beings that she meets. Melvin Morse, MD, another author/pioneer in the NDE field wrote a most inspiring introduction to the book. He describes this book as "a journey into the meaning of this life." He also states that this book teaches us "that our own individual lives are important and filled with meaning." Those returning back from NDE's bring back the simple and beautiful messages - "Love is supreme. . . Love must govern. . . We create our own surrounding by the thoughts we think . . .

I've given this book three stars because it is not badly written and its sheer popularity probably makes it a "must read" for those who are interested in the topic of near-death-experiences. But I do have a few problems with the content, which I'll share as briefly as possible. First, please know that I am not a scoffer. I believe in life-after-death and I'm open to the possibility that near-death-experiences can occur. But Eadie's story, on all too many points, seems terribly contrived. For example, she fails to mention that she is, or at least was, a member of the Church of Jesus Christ of Latter-day Saints (Mormons) at the time that this book was written. I believe it is no coincidence that the most interesting doctrines found in her book: pre-mortal existence, the universal nature of the laws of God, eternal intelligence and more, are drawn from the teachings of the LDS church. Yet nowhere in the book does she mention the remarkable resemblance between what "the Light" told her and what the LDS church teaches. Wouldn't her readers like to know about this connection? Eadie also mingles a liberal amount of New Age philosophy into her visions, so much so, that her books are listed in the New Age category in most book stores, which probably explains why Eadie seems apologetic when she appeals directly to scripture to back up her visions, "I quote from the Bible from time to time, because, although some people dismiss it, in my opinion it contains most of the answer we desperately seek from God.
