## **Customer Reviews**

There is some good information in this book. In a world where books about the Law of Attraction seem to all be the same, I am actually going to walk away with a couple of new techniques after reading this.

I'm just so grateful and thankful that I found you on youtube and found your books on . This book is way better than the secret. I've have got more out of this book than any manifesting book I have ever read. Now I just need to figure out exactly what I want so I can make my own movie in my mind. Thank you so much Linda for your books and all that you do for us. Many blessing to you!!!

Awesome book and super easy read!! They say our "higher selves" place things in our paths so that we find them when the timing is just right. That is the case for me and this book! Thanks for writing this book Linda!!

It is a little short for the price. I think I read it in 20 minutes. It could probably be summarized into 1 page with bullet points. The rest of the writing is just the author's personal stories. It is an ok read though. I feel like it should of just been a chapter at the end of her other book on vibrations.

The problem I have with Linda West is that she would have you believe that she is an expert in the law of attraction. After reading her work I came to the realization that she has a rudimentary understanding of the law, not at a level of expertise. She claims that her techniques are advanced than only the elite insiders know them. Most of her stuff seems to be derived from Neville Goddard. Well I like her five-step technique and her movie method which i think is pretty good. But, That is all she brings to an understanding of the law of attraction. Her most potent manifestation seems to be that she is dating a childhood friend who became an airline pilot. As a result, he takes her on free trips around the world. So essentially her manifestation came about By having sex with a an airline pilot. I simply wasn't too impressed with that. This book is full with a lot of very new age type of thinking. It reads like a couple of women sitting around at Starbucks chatting about things they don't actually understand. The five-step technique is pretty good though. Use it and forget about the rest. That's why she gets two stars instead of one.

This book is well put together, step by step reading that builds from basic information to the completion. Do the exercises as you go along and it seems so simple to accomplish. I did and it started working for me.....amazing! Linda West knows what she talks about.

I cannot believe how amazing this book is. Linda West has written the best how to book on manifesting that I've ever read. I've read lots.... but the way she lays it all out makes so much more sense than others and it's such a fun read!! This book will change your life for the better! It did mine!

This was a really good short informative book on manifestation. It really is all about the energy/vibration that you exude. I like that she didn't waste time with pages of nothingness just so the book can look thicker. The book is short sweet and to the point. Best of all her technique really

works!
