Customer Reviews

I listened to it in the car and bought another set as a gift. it is very reasonably priced and delivered quickly. Rabbi Berl Wein is the historian of our time. he is fair and mindful of all angles and opinions. He is respectful of all points of view but delivers this crash course on history artfully and with respect to his topic and to all points of view. I strongly recommend it.

I have one request to .com. When we as a customer order something from .com and it is from another company, if there is a problem what is the right method to solve the problem? Do we send

an email to .com or try to contact the seller directly. Please clarify this on your website for myself and all customers.Of the five tapes I received in this order, one of the tapes (#420 Side B) is defective. The speaker's voice is going very fast and is very much distorted. I need a replacement for this tape since I have not been able to listen to it yet, though I have completed all the other tapes.Please email me immediately if you are going to take care of this matter. Waiting for your response. This is part of a course I am taking so my receiving the replacement cannot be delayed.Thank you,Dawn Lash
