# The Abridged Urantia Papers

## Synopsis

An abridgment of the 2097-page Urantia Book. Where do we come from? Why are we here? Where are we going? No book offers such a comprehensive and detailed set of answers as the Urantia Book, a revelation of truth first published in 1955 and now available worldwide in several languages. But its size and complexity have delayed the widespread discovery of its uplifting and empowering teachings. Dr. Sprunger's abridgment contains all the major concepts and captures the essential teachings of the 2097-page original, and closely follows the book's format and wording. It has been written to introduce a wider audience to the teachings of the Urantia Book, paving the way for the study of the original text. DR. MEREDITH JUSTIN SPRUNGER is an ordained minister who has served various United Church of Christ congregations in the Midwest. He taught psychology at Elmhurst College and then at the Indiana Institute of Technology, where he was head of the Department of Psychology, chairman of the Division of Liberal Arts, and President. A student of the Urantia Book since 1956, Dr. Sprunger is the author of several Urantia Book-related works. He lives in Fort Wayne, Indiana.

## Customer Reviews

Very well written, very concise and easier to understand than the Urantia Book. This is a great way to preface the study of the Urantia Book, or to just read for pleasure and understanding. Enjoyable and interesting.

This book is a step in the right direction in "translating" the technical language that overwhelms the reader in the first half of the unabridged original. However, some of the most technical language is still used. But, overall, Sprunger's abridgment is helpful for the neophyte who is reading the original for the first time.

This book is a great help when trying to go through the Urantia papers. It is clearly written and helps avoid the excessive wording by sighting in on the real essentials. Well worth the investment if you are studying the Urantia papers.

I have been a reader of the Urantia Book for 44 years. Quoting a friend of mine: "I believe the Urantia Book compiles the most accurate facts (truth) ever presented about God and Creation in 1935, a snapshot if you will." I would add that the UB effectively marries Science and religion in a most harmonious and effective way. This particular version is but an abbreviated version of a very large book. A great resource for those who have read and reread the main text over the years.

One who would attempt to abridge the 2000+ page Urantia revelation would be considered a scholar just for effort alone ... and this abridgment is one of the best on the market! But start saving for the complete edition (or bookmark an online edition) - some topics will be so intriguing that you'll want to know everything that was first written. Also, keep in mind that the Abridged Urantia Papers is copyrighted - the original revelatory text is not. However studied, the Urantia Blessing (theUB) of these 196 Papers is certain to heighten our planet's awareness of its purposeful inclusion in a spiritually-guided universe. This fifth epochal revelation to our planet earth maintains but one nurturing theme: the brotherhood of man and fatherhood of a universal creator.

The Urantia papers (book) has been around for 50 years. It contains information about our world, and the universe, that only true seekers can understand. If you are not curious about the true nature

of God, and who Jesus was, do not read this....it will destroy your belief that the bible is perfect.
