A Better World (The Brilliance Trilogy Book 2)

Synopsis

The brilliant changed everything. Since 1980, one percent of the world has been born with gifts we'd only dreamed of. The ability to sense a person's most intimate secrets, or predict the stock market, or move virtually unseen. For thirty years the world has struggled with a growing divide between the exceptional and the rest of us. Now a terrorist network led by brilliant has crippled three cities. Supermarket shelves stand empty. 911 calls go unanswered. Fanatics are burning people alive. Nick Cooper has always fought to make the world better for his children. As both a brilliant and an advisor to the president of the United States, he's against everything the terrorists represent. But as America slides toward a devastating civil war, Cooper is forced to play a game he dares not lose because his opponents have their own vision of a better world. And to reach it, they're willing to burn this one down.

From Marcus Sakey, the master of the mindful page turner (Gillian Flynn) and one of our best storytellers (Michael Connelly), Book Two of the Brilliance Saga is a relentless thrill ride that will change the way you look at your world and the people around you. The kind of story you've never read before.

Lee Child, New York Times bestselling author of the Jack Reacher Series: Ridiculously good. I love this story so much.

Gillian Flynn, New York Times bestselling author of Gone Girl: Simply put, Marcus Sakey's Brilliance saga is awesome.

Customer Reviews

Marcus Sakey surprised a few people --- actually, a whole army of readers --- in 2013 when he published BRILLIANCE, a science-fiction thriller that was promised to be part of a series. He previously had earned his author bones by publishing a number of stand-alone works that together could be loosely classified under the crime fiction umbrella but were very different from each other. Sakey adroitly turned from one genre to another, seemingly without effort, but utilizing the same tools in the skill set that made his previous efforts so memorable: those would be his perfect storytelling pacing and his uncanny ability to keep the reader guessing as to what will happen next. A BETTER WORLD, the second installment in the Brilliance series, continues with the themes that its predecessor initiated while progressing the story line in frightening and unexpected ways. Sakey's brilliant storytelling abilities are on full display here; within the first 16 pages, not only does he grab readers by the throat and drag them into the story, he also provides a quick yet vital summary of what has gone before. The premise of Sakey's world --- very much like our own --- is that a small but significant minority known as "brilliant" within the population possess skill sets of different types and degrees. After the existence of the brilliant is detected in the early 1980s, a screening examination is administered by fiat at eight years of age when a child is thought or suspected to be a brilliant. Those children who are found to be brilliant are shunted off to "academies" --- glorified institutions --- for the stated purpose of more fully developing their talents. The logic behind this is that the people so identified have the potential to be dangerous far in excess of their numbers.
