Synopsis

Paul is an artist that likes to daydream out of the window of his West Oakland studio loft. One night, he witnesses an attempted suicide by a young woman in the motel room across the way and tries to intervene until he realizes that he's watching a scene of history repeating itself...

Customer Reviews

Wow really great short story. I think that each person who reads it will get something unique out of it. To me it is a story of redemption through paranormal events. Very well written with minimal editing issues. Will be looking out for more stories by this author.

An artist is tormented by a personal tragedy and his model is also affected by a similar occurrence in her past. He has a prescient vision complete with symbolic harbingers. The story does have some editing issues but it's still interesting.

OK, so I only downloaded this because I wanted to write my own review as sort of a tie breaker. As it stands, there are only 3. One 5, one 3, and one 1. Well I failed, because I'm giving it a 2. Now all it needs is a 4, lol! This is a very short story. I wouldn't even call it a novella. According to the other

reviews, there are only 21 pages (I'm reading on my phone, which isn't really set up for standard pages, so I'll take their word for it). It has little character development, little exposition/explanation of anything, and little cohesion, or even resolution, as it has a sort of non ending reminiscent of a twilight zone story. That was 30 minutes long. With commercials. Maybe that's what the author was going for. If so, not my bag, and wouldn't have purchased it had it not been on unlimited. There were also awkward sentence structures, along with several (8) typos/grammar errors. Which is a little up there for this short of a story, especially when they were the type to confuse the flow and take you out of the story, which jumped around enough on it's own. The first star is for getting out there and publishing or getting published. The second star is for a good concept. It just could of used a bit of development/expansion.

I just didn't get it. Maybe I'm not enough of an intellectual, but it made no sense to me. Or maybe I was distracted by all the many errors contained in so few pages.
