Magic Hunter (The Vampire's Mage Series Book 1)

Synopsis

Part One of the Vampire's Mage Series. Rosalind lives for the hunt. Now she might die for it. Rosalind's mission is simple: hunt demons and mages. As a member of the Brotherhood, she's dedicated to protecting the world from dark magic. Someone's got to stop the supernatural bloodlust—even if it means getting up close and personal with vamps. Everything's going to plan until she meets Caine, a mage who oozes dark magic. He's scary as hell and just as sexy. Worse, he's brought her a warning: rumors are spreading that Rosalind is a mage, too. Now, the Hunters have chosen their next target—and it's her. To save her own life, Rosalind must form an uneasy alliance with Caine, traveling with him to the vampire world. But what if the rumors about her are true? If she can't figure out who to trust, and fast, she'll be exiled to the realm of the very monsters she once hunted. Magic Hunter is intended to be read as the beginning of a four-part series. Book one: Magic Hunter Book two: Witch Hunter Book three: Blood Hunter Book four (to be named)

Customer Reviews

Magic Hunter is book 1 in C N Crawford's The Vampires Mage Series. As a member of the Brotherhood, Rosalind's mission is simple: hunt demons and mages. She was built for hunting and it is a hell of a lot more interesting than her computer science classes. But her whole future and her life gets thrown upside down when she meets Caine, a lethal and sexy as sin Mage who brings her the ominous warning that rumours are spreading that she is a Mage and in danger from her own people. Now she is the Hunters next target, can she form an alliance with Caine, who is in league with the demons she once hunted, to save her own life? I really enjoyed the idea behind this book. A Secret society created to help defend humans against the demons running amok in the world, that turns out to be corrupt and making its own rules, when Rosalind discovers the truth and becomes endangered she fights back and tries to make amends. And it pretty much covers off everything that makes a good urban fantasy book and has some fabulous characters: Action, violence, espionage, comedy, romance, demons, vampires, magic, mages, incubi. All the characters in this book have been well thought out with specific traits. Rosalind is strong, independent and stubborn. Caine is powerful, arrogant but secretly compassionate. And the peripheral characters are also well developed for the amount of 'page' time they get. Magic Hunter ends with enough loose ends that you'll want to read the next book but is semi satisfying. I look forward to picking up the next one. I was gifted a copy by the author in exchange for an honest review.

This is an exciting (so far 3 books (of a supposed Girl with exceptional Demon Tracing and fighting skills) who is a member of the Brotherhood. They are dedicated to the eradication of Magic Demons and creatures who threaten the human world. She thought that was her calling until Rosalind ran into a Demon named Cain who not only saved her, but showed her that she was one of the Things she had been hunting, and now her former Hunters are out to destroy her. This book starts a journey of intrigue, imagination, and excitement that makes you look for the next book to see where it leads.

So this story was really pretty dark on the whole. I do love a story where the protagonist has to face questioning their own morality and this has it in spades. It's well written, with great flow and a very different world than I've seen before, rather a twist on fallen angels and magic. This book had plenty of action, some amazingly steamy scenes considering the lack of "action" (which is always impressive in my book and makes me look forward to later books), a great plot, and an optimistic ending. It definitely doesn't wrap everything up neatly and no one in the book is perfect, which gives it better believability as a story. All in all, a great read and a series I'll be following in the future.

Great start to a series. Definitely kept my attention and I liked the book enough to immediately look for the next one. I'm generally pretty careful about purchasing books if the full series isn't out as I've been frustrated with long wait times before (not from this author). I sincerely hope C.N. Crawford keeps the release timing mentioned in the description of this book.

I received a copy of this book for free in exchange for an honest review. This entire book takes place within a 48 hour window of time. From the very first page until the very last sentence I was completely enthralled and needed to know what was going to happen next! I actually kept looking down and seeing how many pages were left because I didn't want it to end! Rosalind and Caine's chemistry is undeniable and their stolen moments of passion in this book definitely keep you wanting more and rooting for them, but the book isn't a love story. As the book progresses we start to learn more about the past that has brought these two to the place they are now and the pieces of the puzzle start falling into place. Rosalind is a strong female character that can definitely kick ass but gets herself into some precarious situations but as a team, her and Caine work. I can't wait to see where book 2 takes us on their journey! It definitely leaves us at a place where you need to see what happens next :)

I just finished this latest book from CN Crawford and I absolutely loved it!! I can't wait for the next installment. I fell in love with the characters and the story line. It's easy to see the parallels with other belief systems and how we shouldn't just blindly follow along without asking why. It's an empowering story that's easy to get lost in.

I loved this book so much! I whipped through it in one night..I literally couldn't put it down. The storyline is great, the character interaction is perfect. Off to the next book! Thanks for taking me on a magical ride!

Told in a way that is enjoyable to read. He's the bad boy all girls have a secret crush for. It's also nice that the heroine does get hurt, doesn't win every battle and every guy doesn't fall in complete lust w her the second they see her. Her whining is a bit annoying and you really wonder if anyone could really be that blind...I mean she felt her own natural instinct making her second guess her actions and she always forces it away, yet being a trained warrior and she "relies" on sensing things so that is not marching to the same beat.....but again not a bad read for an evening home
