## Customer Reviews

This is the second book of the Addison Lockhart series. In this one, Addison swears she hears the two girls of a father whose grave she is visiting. The girls died young. How they died is a mystery that even the neighbor Helen doesn't really know. An exciting whodunit with some paranormal elements too. Cheryl Bradshaw is one of the better mystery writers today and this is another winner from her.

I just stumbled across this author and decided to give the Addison book a try, but I was quickly immersed in the world of Addison and Luke!! I would love to see more books in this series to see how their life goes and what happens when they have children!! If you are a fan of mysteries with a paranormal bend then you will love this author and these 2 books!!

When I started reading on my Kindle, it said there was just under 2 hours until the end of the book. I usually read a few reviews, even on .99 books. Didn't notice that this is more of a novella. Only 120 pages. But, I enjoyed all 120 pages. I will get the first book (since I have not read it), but it will have to be under \$2 (I'm cheap). I liked the characters and the paranormal aspect. The writing was fine as well.

I was underwhelmed by this book. I thought it would be a suspense thriller from the cover and introduction. It reminded me of the Phyllis Whitney and Victoria Holt books I read when I was a kid. Very predictable and a little hokie.

This book had such good reviews that I was hoping it would be suspenseful. It was very disappointing. There is very little suspense, and the writing seems as if it were written for teens with a low IQ. I started skipping through it just to get to the end. Thankfully, it only cost \$.99, which was too much.

I loved the first book in this series and was very excited about this book. It did not disappoint. I spent the night reading it and was intrigued with Addison talking to the girls and wanted to know how they died. I also was so happy to see the relationship with Luke progress. The story kept me so engrossed I could not put it down. I was also happy that Rose now knows what happened to the girls. I was worried about how I would feel if Addison was able to solve the mystery and they would have to leave but Mrs. Bradshaw came up with an ending that made me happy. I cannot wait for more and would highly suggest you read this book. It was a really good book! I want more!

This is the second book and it shouldn't be read first in the series. I love the character Addison and Luke. I love the storyline and I always try to figure out who did it before the end but the author is awesome and doesn't let you figure it out. Crafty she is. I love all her books and recommend them to anyone.

This is a follow-up to Grayson Manor Haunting. Addison has been summoned by deceased (but not yet passed on) twin girls who haunt Rosecliff Manor and she has to figure out why these girls are contacting her. She is so drawn by the girls that they (Addison and Luke) visit the property and meet the owner and her son. After some coaxing, they are permitted to see inside the house. Addison has a feeling that what she needs is in the attic and she embarks on a mission, given hell or high water, to get back in the house and explore. This is a real page turner that will keep you up all night if you're not paying attention to the hour. Really! It's a page turner and you will not want to put it down. Everyone in town thought the issue surrounding the girls' death was long ago resolved....but ooooh no. I hope this is enough to make you want to read this book. You will love it.
