Some authors lose their focus or what made their story lines and characters engaging the more books they write in a series. Not so Steven Konkoly. The writing is just as fresh in book 3 as it was in books 1 and 2. The writing in these three books is consistent, clear, and well edited. The characters are interesting and three dimensional. The bad guys are treated with respect in that they are typically quite capable and the good guys can't just roll over them and saunter off with nary a broken sweat. The pacing is excellent. I highly recommend this trilogy. You will get hooked at the beginning of the first book and will be clammering for more as you turn the last page of book 3.

If you love military thrillers these books are for you. I loved the covert black ops teams. Wanted yet

hated(feared?) By the government it is obvious that they are needed to do the things government couldn't do outright. But, it is for the greater good. At first you may think the team is sinister but you will find yourself rooting for these highly trained characters because their objective is good even if a bit messy.

For those who are new to this author, I (along with a lot of others) look forward to reading any new book that Steven Konkoly writes! They will not put you to sleep and are action books with good interaction between the characters. While there are romantic entanglements as there are in real life, he does not over do it as in some romantic novels. I heartily encourage anyone who has never read one of his books to do so! But be forewarned, you will then be HOOKED!!

This is one that totally blew away my ability to stop, put it down, and turn out the lights, so it made for a really long day at work the next day! You know how - when you get to that part of the movie when you know something major is about to happen, so you can't look away? In this story, you never quite see major stuff coming, and the twists and turns will really keep your brain fully engaged!

It's been awhile since I've read a covert ops and espionage series and I have to say this is an excellent pick for jumping back into those murky and dangerous waters. I was captured from the very first, finding intense action interspersed with technical jargon, all of which was punctuated by brief moments of levity. It's so captivating I've purchased the next two books. There are numerous headlines that I could choose for this set, but none would do it justice. Some of my thoughts are: Personal Agendas and Long Memories, Mr and Mrs Smith Freelance Team, Paint It Black, The Last Line of Defense, Quickness and Zero Hesitation and A Menacing Darkness. This series is astoundingly scary. It gives "don't drink the water" a whole new meaning. Don't plan on sleeping anytime soon.

I read the series individually as released. Steve is a great writer that makes the story believable. You are right there. The problem with that is cannot put them down. Have to finish. Throws my retirement schedules out. Very glad this 3 book series did not come out at once. Seriously, I highly recommend this writer and this series.

The Black Flagged series is surely one of the best series I have read in recent years (reading about

50 books per year) and on par with Vince Flynn's Mitch Rapp series, Brad Thor's Scott Harvath, Ben Coes's, Mark Greaney's Grayman series, Tom Wood's Victor series. Fast action, cool plots and amazing writing. Can't wait to for the next book to be published!!!

When I started reading the first Black Flag book I was bored by the first few pages. I then re-read the reviews on this book and decided that I should try harder. Am I glad I did. I finished the first and could not wait to read the next books in this series. Great reading if this is your type of genre.
