# The Stars That Fell (Seven Sisters Series Book 4)

## Synopsis

Secrets Never Stay Hidden Just Ask Any Ghost When Carrie Jo and Ashland Stuart uncovered the truth about the ghosts of Seven Sisters, they were sure that the supernatural activity would end. When they return home to Mobile after their honeymoon, they soon realize they were wrongânot everyone is at rest. Something or someone is reaching out to the dream catcher. And this time, lives are in the balance. After a tragic accident, Carrie Jo uses her gift to help a hurting friend in a new wayâwith hair-raising results! In a true good-versus-evil showdown, Carrie Jo witnesses the ghosts of the past struggle with one another. What will she and her friends have to sacrifice for evil to be defeated?

## Customer Reviews

This is really a pathetic book presented as a series of books. It's as if the author wrote a book, didn't finish, divided the one book into three novels and added an epilogue at the end of the third book in an attempt to quickly tie up loose ends. Then began the fourth book - this one - having forgotten she had killed off one of the characters, and then presenting the recently deceased character as still alive and causing trouble. If an author cannot remember the timeline of his/her own characters, then the author has no business writing books for sale. It's almost as if she wanted to make as much as she possibly could with the least amount of effort. This could have been an interesting book (NOT BOOKS), had the author devoted more time and attention to her own writing.

Barely just okay. The first three books were free on Kindle Unlimited and the story, albeit slow paced, did eventually move along with the paranormal elements the only aspect to catch my interest. With the exception of very few, most characters are one dimensional. The story goes in circles then when you think it will finally progress the author throws in a new character to go off in a totally different direction. The modern version of never ending story. By the time I finished book four, which I bought, I was done. This story goes round and round until it falls down, no doubt from the dizzying effects of the soap opera characters, dialogue and scenes. Books five and six I have no interest in reading. What could've been a good historical, genealogical, paranormal adventure turned into tripe. The characters became annoying in their chronic whining, crying and insecurities. Personalities flip flopped and the strong became the weak and vice versa. You would think that would make for good drama but not so much in this series. If interested and a Kindle Unlimited customer then download the first three free books and save your money on the fourth as the number of reviews show. Fourth, fifth, and sixth books have less and less reviews. No doubt through less and less readers.

this book completely contradicted the book that came before in the series, and I use that word lightly. I regret buying it. the author needs to re-read what they have written and choose one plot to

go with. one character is alive here that died previously. another character has a different name/back story than the book immediately prior to this. several points here were unclear. reads like a teen fanfiction without a fandom

Whew! What a roller coaster ride! I feel as if my efforts in sticking with this author have been vindicated. What started out as a great short story has finally evolved into a whole novel. Not all of the characters were well developed. Some of the scenes could have been better sketched out, but the story was good. I believe that this author is growing and learning. I am willing to read more of her work.

So far, this was my least favorite of the series. I still liked it but I feel at this point it was just a stretch of the series and was just too much. It was the last chapter, the closure, that was like "really?? enough!!" Quite honestly, I didn't really understand it. I had to reread it and then I was just so underwhelmed. Apparently there is or there will be a 5th book and I am not really sure why. This has closure and I feel like it has run its course. This actually disappoints me because this is how great series lose credibility in my opinion.

This series is a walking cliché of everything that makes a bad series. Unanswered points from book to book, stretching out a thin story, rushed endings without answers, and too many offshoot stories about characters that you can't remember who they are. This story could have been a great read in one big book, but was watered down to be an ineffective series.

This is the 4th book in a series written by this author it should just be one book since this is the only one that has an ending. I hate cliff hangers but these stories just stop. The writing was sad so many confusing paragraphs as in one section the character turns the shower on twice and in between pulls out clean clothes. The idea and story like I said should be all 4 books together and find a good editor.

These books are very entertaining. My only problem is that book 1 and 2 should be one book, and books 3 and 4 should be one book. The characters are interesting and I couldn't put the books down. My only problem with this series is that the books simply end. It was not too much of a problem for the first 4 books because I read one right after the other. The 5th book is another story. The author never completely answers the mysteries in each book. The next book just brings more

questions.
