## Synopsis

Cure chronic illness and improve relationships!!!!!!Free Bonus Gift Included Inside!!!!!!Discover artistic abilities you never knew you had with help from Past Life Regression TherapyPast life regression therapy does more than remedy the symptoms of a problem; it delves into your subconscious, finds the root of the problem, and permanently eradicates it from your life. Limiting fears and patterns of damaging behavior are often the results of actions taken and decisions made in past lives. Within the pages of Past Life Regression: Healing Your Past to Improve Your Future, you will discover methods for atoning for past actions and reversing limiting decisions so that you can move on with your present life. In refusing to take advantage of this valuable information, you allow your past to limit your future.You will find out how to heal past traumas in order to erase present phobias; renegotiate contracts that may be trapping you in negative relationships; and take advantage of skills your past selves have honed to perfection over the course of many centuries.Past regression therapy is based on ancient Buddhist and Hindu philosophy as well as Einstein's fundamental theory of relativity. It has turned poverty into financial gain and transformed damaging relationships into healthy families. In passing up your opportunity to learn more about this powerful transformational tool, you ignore the wisdom of the world's most trusted scientists and philosophers. If you have ever wondered about the source of your bad luck in life, you will find your answers in the pages of Past Life Regression: Healing Your Past to Improve Your Future. 7

## Customer Reviews

I'm a skeptic of past life regression (PLR) and I still am one, but that has more to do with my personal beliefs than the book. There's no denying that this book is extremely informative on the topic. I like how the book addresses skeptics right from the start and mentions that PLR therapy has triggered real healing (perhaps through other means) even if one does not believe in it. Also, as a friend of someone who is a believer, I now have a better understanding of the subject from my friend's point of view after reading what the book has to say. Overall, this was an eye-opener and I recommend this to anyone who's considering past life regression therapy or who wants to learn more about it.

I'm not a past life regression practitioner but I'm trying to access past life memories by working with a hypnotist and doing my own meditation. Even so this book was fascinating for me. It goes far beyond just the mechanics of hypnotizing someone although that is covered for the professionals who regress others for a living. It looks at past life memories and the time between lives from a broad perspective as far as how they relate to each other and to this current life. The author seems to have certain psychic abilities and be able to travel in other dimensions such as the 'astral' plane of existence.

The idea that we have all lived past lives is fascinating. I'm not sure that I believe it 100%, but

there's no way we can possibly know for sure as humans, so I like to read about it and keep an open mind. This book has been an interesting read--lots of info and stories. Recommended.

I believe in Karma. Last time I read different books about healing energy. I came across a very interesting book as it is!! I found answers for some important questions in my life because the book is well larded with step sequence for reliving your past lives. Thanks to the author!

Is something can help, my attitude is why not? I am highly pleased with the information on this book especially on hypnosis and how it can help you overcome issues of the yester-years. Fear is a big challenge to many people that prevents us from moving on with progress and this book shows readers the techniques you can use to overcome such fears.
