Customer Reviews

At first, I thought this book was so boring. Glad that it broke my expectation and turn it into an interesting book for me that I could even recommend it to others just as how my friend recommended this to me. You wonâ™t regret taking time to read this one because you will learn and explore lot of things specially in chakras and mudras.

I bought this in vcr years ago. Well after I had become a Reiki Master. It resonated, and yes met the Comedy team, so she isn't making that up. After the tapes self destructed, and I had lent the book out and still haven't got that back, I bought the dvd's. Having become a Master in 4 traditions, I still like Diane's style. Still very much believe in affordable and available Reiki. This world would be a far better place if all mankind was attuned. ^

Informing! I quite enjoyed this book. It is well written and content-wise abundant. It is a very nice introduction book to Reiki and its principles. The book guides you through difficult topics like meditation, chakras and hand positions for healing in a slow, understandable manner. My favorite chapter is the one with meditation as I am currently trying my luck in this field; the book provided me with nice insights. Really worth reading!
