Veterinary Dermatopathology: A Macroscopic And Microscopic Evaluation Of Canine And Feline Skin Disease

Synopsis

A handbook on skin disease in dogs and cats, this work correlates written material to photographs of dermatological problems and places emphasis on morphologic aspects, gross and microscopic appearance. The benefit to be gained from the clinicopathologic method of diagnosis is also covered and information is provided on basic microscopic lesions of skin diseases and how these relate to aetiopathogenesis, severity of the clinical signs and prognosis.
