The fourth book in White-Wolf's Changeling: the Lost gameline, Lords of Summer gives a look at the courtly intrigues of the Changelings. At long last, we get to see how freeholds operate (and come into conflict with one another) and, more importantly, the way that the Court structure comes up. Each of the four Seasonal Courts gets a write up in this book, giving background on their philosophies, lifestyles and recruitment, from the fear-mongering mystics of the Autumn Court to the wild revelry of the Spring Court to the hidden secrets of the Winter Court to the brutal warrior ways of the Summer Court, each one is examined. Not only that, we also learn more about the various rituals practiced by the different courts, the reasons behind their favored emotions and how that colors their perceptions, and perhaps most importantly, the various titles used by the Courts, and their roles. However, lest you go thinking this is just a book of politics, war and Changeling rites, it also has a fair amount of crunch. Each of the Courts gets a new, thematic Contract list, and a new

Entitlement, and the whole second half of the book is full of them. The Contracts were actually fairly nice, especially Verdant Spring (which focuses on Spring's association with passion) and Spellbound Autumn (focusing on Autumn's role as a Fae magician). All in all there's about a dozen of them, ranging from the Lord Sages of the Unknown Reaches (who study other supernaturals) to the Magi of the Gilded Thorn (Autumn Courtiers who explore the Hedge) to the Eternal Echoes (who record the experiences of Changelings) to the Guild of the Goldspinnners (literally money-makers) to the Lost Pantheon (who seek to become literal Gods) to the Barony of the Lesser Ones (who seek to dominate Hobgoblins).
