# Sinister Forces&#151;The Nine: A Grimoire Of American Political Witchcraft

## Synopsis

The roots of coincidence and conspiracy in American politics, crime, and culture are examined in this first volume of a three-part set, exposing new connections between religion, political conspiracy, and occultism. Based on the premise that there is a satanic undercurrent to American affairs, this study examines the sinister forces at work throughout history, from ancient American civilizations and the mysterious mound-builder culture to the Salem witch trials, the birth of Mormonism during a ritual of ceremonial magic by Joseph Smith Jr., and Operations Paperclip and Bluebird. Not a work of speculative history, this exposé is founded on primary source material and historical documents. Fascinating details are revealed, including the bizarre world of "wandering bishops" who appear throughout the Kennedy assassinations; a CIA mind-control program run amok in the United States and Canada; a famous American spiritual leader who had ties to Lee Harvey Oswald in the weeks and months leading up to the assassination of President Kennedy; and the "Manson secret."

## Customer Reviews

Sinister Forces (Vol. I) digs far beyond the plots and counter-plots familiar to conspiracy buffs. By now, the American people have endured their own initiatory journey of multiple assassinations,

wrong-headed wars hot and cold, and passed through enough contemporary "gates"--Watergate, Contragate, Irangate to name a few--that at this point, reports of low deeds in high places are often greeted with a certain sickened fatalism. *Sinister Forces* analyzes American History more profoundly than anything most of us are accustomed to, takes us behind the scenes of consensus reality to show us not just the puppetmasters manipulating the events that become our headlines, but does a convincing job of tracking the spoor, footprints and slime trails of Whatever might be holding the strings of those puppetmasters. We know about the spinmeisters already, but who, or what, Levenda asks, is controlling "them?" The author's thesis, sketched out boldly and backed by exhaustive documentation, is that something sinister, possibly Satanic, in any event appallingly Other, has been shaping American history from the days of its earliest human inhabitants. Levenda is tackling nothing less than the metaphysical underpinnings of American history from the mysterious mound-building cultures through the Salem witch trials to 20th century mind-control experiments. This is no speculative history, but--as we've come to expect from Levenda--a meticulously researched argument that sheds disturbing light on the land of the free--which may be anything but. This book deserves five stars-plus for intellectual courage alone.

*Sinister Forces: A Grimoire of American Political Witchcraft: Book One: The Nine* by Peter Levenda, author of *Unholy Alliance* a book about the Nazis and the occult, published by Trine Day is an occult political history of America. This book is the first book in the trilogy of books *Sinister Forces* put out by the author. The author traces the history of America from its earliest days up until the Kennedy assassination and the Manson murders, showing how sinister occult influences lie underneath the political fabric of this country. This book is a rather rambling account which attempts to piece together various obscure and occult articles of information that have remained hidden beneath the surface to other investigators. While many so-called "conspiracy theorists" have picked up on this underground knowledge, few others in the mainstream know of these occult synchronicities. Indeed, the notion of synchronicity of Carl Jung plays an important role in this book, which often borders on a stream of consciousness attempt to connect disparate elements within the American political historical landscape. The book is divided into three sections entitled: "Deep Background", "Agents of the Devil", and "Crossfire". Each section provides a snapshot of various events within American history and their occult origins. The first section begins by discussing the writer of occult horror H. P. Lovecraft, whose incorporation of Native American elements, with ancient pagan religions brought over from old Europe, along with tales of New England witchcraft and sorcery into his stories provided such a unique understanding of the esoteric

origins of America.
