## Customer Reviews

I just received this book in the mail yesterday, and I literally can't put it down! I'm already on chapter 11, it's a fascinating read! Darren captures your attention with how he became obsessed with the demon Zozo and how it turned his life upside down...there's interesting letters from other people's interactions with the Zozo demon as Darren soon finds out he is not alone- it's a worldwide evil phenomenon. Excellent presentation, I can't recommend this book enough!

I received the ZoZo Phenomenon on Thursday and just finished reading it. You cannot put this book down! Darren and Rosemary have done such an amazing job at shedding light on the entire phenomenon. It's so well written, so many different accounts, stories, historical documents. This is one book that all Ouija Users should definitely read! For myself personally it answered every question I had ever had on this entire phenomenon. Darren and Rosemary also cover ALL bases for the Z entities. Djinn, Elementals, thought forms and magick. This is one book that is definitely going to be read more than once. I'll admit not a lot scares me but a few of the stories were terrifying! It will have you on the edge of your seat!

I received my copy today and can't put it down. Darren not only shares his experiences but those of others who have encountered ZOZO. The book gives you first hand accounts, origins of ZOZO and all of the research Darren and Rosemary have collected in a condensed form. The book sticks to its subject and doesn't venture off course like many of its contemporaries. Bravo Darren and thank you for sharing your experiences.

The book was moderately interesting, a good read if you just feel like polishing off a book within a day's time. The format was quite jumbled and the editing left much to be desired. It's admirable to submit experiential accounts verbatim but many had such poor syntax and sentence structure they were painful to read. Overall this book would best be borrowed and not purchased. It's raw and unrefined. A \$2 book at best

A detailed no-nonsense & real-life experience outlined by the author. His account mirrors many that I have heard from others. All spirit communication tools have a 'dark side'. The Ouija or spirit board seems to have its unique issues, by capturing the subconscious of the users and creating a conduit to an malevolent astral plane. There are several arguments as to the actual identification of 'Zozo'. Very interesting and entertaining read...I look forward to talking to the author.
