Customer Reviews

I have been writing for a living for more than 40 years and most of those years I have bought a copy of Writer's Market. There have been years when I didn't largely because I had so much work that year that I simply didn't need to find new customers--I'm very grateful for those years which are not as common as I'd like. Some years it's a struggle to find work and, in particular, to find well-paying work with new clients. During those years I use the WM a lot and I always seem to come up with one or two new ideas and sometimes a new client. But I still have ambivalent feelings about the value of this book. There are several reasons that this book is not the nirvana that you might think it would be. I mean, with thousands and thousands of markets listed, you'd think that any professional writer, or even any beginning writer, would be able to find new clients. But that's a deceptive point of view, trust me. First of all, I have learned after all these years that you have to be as selective about the people you write for as the people you choose as friends--maybe more so, because you depend on those clients to pay your bills and keep your life moving forward. So the first thing I do when I sit down with WM is cross out (in red ink) any magazines or publishers that I would simply never work for. For example, a lot of magazine publishers list their per-word rates. Here's a tip if you're new to writing: if you are depending on earning a living from your writing, don't go bottom feeding in these listings. If you are good enough to get an assignment from a low-level magazine, you are probably good enough to work for a top-shelf magazine. So why waste your time working for a few pennies a word: don't do it.
