## Customer Reviews

After I picked up *Suite Française* by Irene Nemirovsky, I happened to look at the cover-design credit and recognized the name Chip Kidd. After a moment's reflection as to the source of my familiarity with the designer, I walked over to my bookshelf and picked up a volume from my collection of Osamu Tezuka's *Buddha*. Sure enough, Kidd had designed the covers for the entire

series (incidentally, I found the design one part frustrating and one part inspiring, as the spines line up nicely and thematically but the half-jacket is kind of obnoxious to deal with). After that, I went through my shelves and picked out any of the books that I thought had interesting covers. At least half of those were designed by Kidd as well. Kafka on the Shore. Pagan Babies. The Enigma of Japanese Power. Created in Darkness by Troubled Americans. Et cetera. I was intrigued, Googled our dear designer, and found that he was more popular than I had properly imagined. This piqued still further my curiosity. And so now I have another book with a cover designed by Kidd: Chip Kidd: Book One: Work: 1986-2006, a 400-page volume exhibiting a sample of his book-jacket designwork from the last twenty years. The book itself is a treasure. A visual smorgasbord of styles and themes. A veritable cornucopia of novel treatments. While there is an occasional overlap of feel or technique (or some other abstract quantification equally obscured and subjective), the breadth of design direction is truly impressive. Kidd is clearly a creative devil. And this collection of his work is impressively presented. Book One is a treat for both the eyes and the mind.
