Personal History

Synopsis

Winner of the 1998 Pulitzer Prize for Biography An extraordinarily frank, honest, and generous book by one of America's most famous and admired women, *Personal History* is, as its title suggests, a book composed of both personal memoir and history. It is the story of Graham's parents: the multimillionaire father who left private business and government service to buy and restore the down-and-out Washington Post, and the formidable, self-absorbed mother who was more interested in her political and charity work, and her passionate friendships with men like Thomas Mann and Adlai Stevenson, than in her children. It is the story of how The Washington Post struggled to succeed -- a fascinating and instructive business history as told from the inside (the paper has been run by Graham herself, her father, her husband, and now her son). It is the story of Phil Graham -- Kay's brilliant, charismatic husband (he clerked for two Supreme Court justices) -- whose plunge into manic-depression, betrayal, and eventual suicide is movingly and charitably recounted. Best of all, it is the story of Kay Graham herself. She was brought up in a family of great wealth, yet she learned and understood nothing about money. She is half-Jewish, yet -- incredibly -- remained unaware of it for many years. She describes herself as having been naive and awkward, yet intelligent and energetic. She married a man she worshipped, and he fascinated and educated her, and then, in his illness, turned from her and abused her. This destruction of her confidence and happiness is a drama in itself, followed by the even more intense drama of her new life as the head of a great newspaper and a great company, a famous (and even feared) woman in her own right. Hers is a life that came into its own with a vengeance -- a success story on every level. Graham's book is populated with a cast of fascinating characters, from fifty years of presidents (and their wives), to Steichen, Brancusi, Felix Frankfurter, Warren Buffett (her great advisor and protector), Robert McNamara, George Schultz (her regular tennis partner), and, of course, the great names from the Post: Woodward, Bernstein, and Graham's editorpartner, Ben Bradlee. She writes of them, and of the most dramatic moments of her stewardship of the Post (including the Pentagon Papers, Watergate, and the pressmen's strike), with acuity, humor, and good judgment. Her book is about learning by doing, about growing and growing up, about Washington, and about a woman liberated by both circumstance and her own great strengths.

Book Information

Paperback: 642 pages

Publisher: Vintage (February 24, 1998)

Language: English

ISBN-10: 0375701044

ISBN-13: 978-0375701047

Customer Reviews

A treasure for people who make a hobby out of media stories, as I do, *Personal History* is as much about the Post as it is about Graham herself. But as I think Graham is saying in the book, everything personal in her life was somehow linked to the paper-- either through her own efforts at its helm or as the wife and daughter of the men who were leading it. I've read a lot of the criticism of this book-- and I know enough about media history to know that at least some of it is fair. At least in the sense that it's accurate. Graham doesn't come out wearing a hair shirt about the real media relationship to people in power. She also has a slightly nervous tone-- the sound of someone who isn't very sure her accomplishments are going to be achieved. But in the end I found that even valid criticisms didn't really interfere with my reading of the book. In the end I was moved by it, and felt honored that Graham was so willing to put herself out there to be observed and judged. In some respects it's difficult to argue that Graham had a difficult life-- she was born to such enormous privilege that she had resources to deal with tragedy that most people can never command. (You hear her refer to her family's 'summer home', but what that means remains opaque until you see the picture!). Even still, Graham is human. To be constantly in the shadow of the people in your life, to see yourself as helpmeet and not a full person, to emerge from that shadow and assert that you have a place in your own right-- that's certainly something that speaks to everyone, regardless of who they are. What I find extraordinary is how revealing the book is about her insecurities. This is a very personal autobiography, and Graham lets you see her weaknesses in a way that I think most public figures would not allow.
