## **Customer Reviews**

As always the Cozy Mystery series never fails to delight. Light easy to read & enjoyable books usually with a balanced combination of 'who done it' and romance ,.I'm so over the abundance of 'too much information' sex which leaves nothing to the imagination and is so prevalent in many books , often without a decent storyline , so the Cozy books are very welcome ..

This collection of books is the BEST!!!! Lite summer reading great mystery to be solved enjoyed reading books by these author's. I really enjoy the Witches Of Enchanted Bay series have been

reading this series and now to have all in one book plus the other stories. Which were very good also I like mystery books with a little lite romance thrown in but not major heavy details. I would let my 16 year old granddaughter read these books. I was given a advance copy to read and write a honest review.

Dull. If I were an English Professor and my college students handed in these stories as an assignment, the grades would range between D and C+. Each story's main character is a reluctant, spur-of-the-moment, amateur private investigator who is smarter than the police. How many stories-- not even good stories-- can you read in a row with the same setup? Being naive, stupid or hopeful, I kept reading, thinking it would get better. It didn't.

I've read the majority of these books and enjoyed them immensely. They are just the right length to read for a day at the beach or a lazy afternoon. There's no cursing or graphic descriptions. The main characters are loveable sleuths and their friends are the type you'd like to know yourself. I highly recommend these books. Enjoy!

Books followed a pattern and was very predictable. It seemed they were all written on the same diagram.

**\*\*SPOILER FREE\*\*** Love this set! Each one holds it's own plot and characters. They draw you in and you find yourself finishing each one quickly and before you even realize it! They are fast paced page turners! \*Received for an honest review\*

A little too light, all with same premise. I'm not a cop, but will investigate....4th one the best writing, at first. Did not finish last one. Several had no clues as to the "villain", other than being on a list to question.

I just love mystery books and I have read most of these books. Some are new and I can say it is a very good choice of writers. So many different plots and characters. Wow having a gret time reading these.
