Murder On Russian Hill (Peyton Brooks' Series Book 3)

Synopsis

When rock star Joshua Ravensong is accused of murder, Peyton must pit her professional reputation against a growing attraction for the legend. Although the evidence is solid against him, Peyton can't deny this is one bad boy she wants to save.

Customer Reviews

This was a great book with again two stories going on at once. The author brought them both together with excellence. You couldn't help but fall in love with the rock star, Joshua, the author portrayed so well. I liked it because there was not a lot of violence given blow by blow just suggested. I enjoyed the other characters in the book as well because they were very believable.

Peyton Marco and Jake are back. The series continues and although this one was a little slower, it's still a good one. It also focuses around a character that the author writes another book about, Joshua. Looking forward to book 4 and the book about Joshua. Keep them coming M L, I enjoy this series.

I enjoyed this second book. It was a fast read. I liked how the characters got more real for me and

how there were people from the first novel woven into the plot of this one. It made me feel like I was living there again to have real streets and places as the setting for these stories. A few issues were left at loose ends but I am assuming I will see their end in one of the next books. Some real life situations were brought into the plot and handled well. People do go through these kinds of experiences and emotions in real lives. I enjoyed the book.

I have listened to all three books in this series and they get better each time. I enjoyed the audio narration very much. This narrator's performance goes beyond reading the book outloud. She gives each character a distinct personality and draws you in during the dramatic scenes. Good story, characters that are believable and a great narration: a great combination. I can't wait for the next book of the series.

This AUDIOBOOK is fantastic - just like the 2 before - POTRERO and TENDERLOIN. It's so much more than a mystery. Author Hamilton satisfies the thriller and peaks the romantic interest as well, creating homogenous crew of detectives and medical examiners and friends. Listening to the story you feel like you are right there in their world. And Joshua Ravensong - his back story, his journey. You can feel his emptiness but also his hope. Good job Hamilton - when can we look for #4!

Hamilton's use of first and third person narratives is compelling. Past and present are introduced and continued smoothly. Some cop behavior comes across as juvenile and/or flagrant sexual harassment. Female characters' names could be more varied. Overall a good story leading to another rescued suspect by Peyton but it took the entire precinct to pull off the arrest.

This is the third in the San Francisco murder series by this author. They are all fast-paced and hold you to the last page. Even if you've never lived in San Francisco, you'll recognize the locales and if you ARE a native, you just may recognize some of the characters...in disguise, of course!

Thought it was a mystery, alas, it reads more like a romance novel, ala Danielle Steel. Peyton rushes to judgment with Jake, guess what, she does the same thing with Ravenstock, obviously has a slow learning curve. Also, why are men continuously referred to as 'delicious' and other ludicrous terms, not in the least bit masculine? These are allegedly professionals and they 'drool' over any man they see? Call it what it is, a badly written romance novel.
