Palmistry: Are You A Rule Maker Or A Rule Breaker? Leaders And Followers.: Self-Help Books By Hassan Jaffer

Synopsis

Self-Help Palmistry focuses on one question: Are you a leader or a Follower? A Rule Maker or a Rule Breaker? Do you simply follow the rules or are constantly having conflicts with authority figures unless you have your own way. The same principles will help you understand your children and your spouse. Remember this is only your approach but it applies to almost everything in life! Whether you are a follower of rules or one who is a natural leader but gets into trouble with authority figures all the time and procrastinates till the last minute, it is all in your hands. There are basically two types of leaders, CEOs, teachers, coaches, athletes, actors, and even workers. Although there are a few variations, we have taken the two extremes to make the contrast even more clear i.e. cautious and methodical vs. action oriented and spontaneous types. Find out which approach is natural for you and best suited to lead a happier and balanced life. Your personality keeps changing but your temperament never does and this Self-Help book will show you which approach is best suited for you towards your career, relationships, or completing a project and how you come across to others in public. This could be a life changing experience for you as you will discover how to accomplish much more in life just by following your natural approach to everything in life. When we are talking about a follower, it doesn't mean that the person cannot be a CEO or the president of a country. It just means that their approach to life is that of one who still follows the rules and their style is more hard work than sudden climb to fame and power like Obama. Similarly, a leader in this context is one who is leader of the pack and takes matters in his own hands. Leaders and Followers will help you understand your child as well and to develop their best characteristics. Imagine being able to look at a presidential candidate and immediately being able to tell know if they will maintain the status quo or bring significant changes even when there is major opposition to their plans. Hassan has included the hands of many super stars including singers Beyoncé, Britney Spears, Elvis Presley, Katy Perry, Madonna, Michael Jackson, Mick Jagger, Miley Cyrus, Rihanna, Taylor Swift, Hollywood actors Angelina Jolie, Denzel Washington, Johnny Depp, Kim Kardashian, Megan Fox, Oprah Winfrey, Tom Cruise, Sean Penn, Robin Williams, Jim Carrey, Bollywood Actors Amitabh Bachchan, Aishwaria Rai, Salman Khan, Shahrukh Khan, Royalty Prince Charles, Princess Diana, Prince William, Kate Middleton, Prince George and Politicians Barack Obama, Bill Clinton, Justin Trudeau, businessman Bill Gates, Donald Trump, Steve Jobs and much more. He has even included a section for Marriage Compatibility and Special Advice for Parents and Teachers as well. This is also a great help for casting directors and those who promote singers and people in the entertainment world. What was the single most powerful indication in the hands of Britney Spears, Madonna, Rihanna, and Beyonce which put them on top of the chart? Which singer is naturally

dynamic and will immediately get to the top of the chart? Which Presidential candidate will actually bring changes and which one will just maintain the status quo? This self-help kindle book, is a must read not only for the general public but the athlete, the coach, the teacher, the parent, the actor, the director and all of them have been discussed with many illustrations and pictures of real celebrities.

Customer Reviews

Very interesting. Actually not long enough but long enough. My opinion by a close knit head and life line. I will be going back over what I read and connect this with my relationships. More, more., still short and sweet. Familiar with Hassan Shaffer and still love it, even when I don't understand.

Fascinating. This book, while rudimentary in its presentation and seemingly only for entertainment purposes, has astonishing insight regarding one's temperament and provides a number of suggestions for its practical applications. My guard is always up when it comes to books like this as one can easily be taken in by the Fuler Effect; but this book cuts a straight line down the middle - borderline dogmatic in its approach - and challenges you to pick a side. You'll have a hard time denying who you are, especially when the evidence is quite literally right in the palm of your hand. I

wouldn't suggest you buy this book simply to intoxicate yourself with new ideas (if you're the type looking for their next dopamine rush), but fully investigate if what's being said about you is the real you.

A great asset and a mind-opener that enables you to be able to interpret what's right here on our hands and relate it to our life, history, present and future. Based on a great collection of data from public figures; so that we can actually see the trends and connect the dots. The information in this easy and powerful book by Mr. Jaffer can help shed light into how to work with what exists and to use it as a tool for productivity/progress in our lives and not get stuck in stagnancy, negative wrong-views and superstition. Recommend it to anyone with a curiosity towards life ! Thank you for your work Mr. Jaffer.....

A book that you can use in your everyday life especially when you meet someone new. The hands tell a story and this book explains how to interpret them with a simple method that can easily be followed. It's an interesting read and keeps you intrigued till the end. I highly recommend this purchase for anyone.
