## Customer Reviews

As a lover of suspense and murder mysteries, the Sarah Woods Mystery Series by Jennifer L. Jennings were definitely my cup of tea. Her characters are believable and not larger than life, just normal people with interesting, although sometimes dangerous, lives and careers. I particularly like the way the cases interweave with and affect the lives of the main characters (Sarah, Carter and Max). I'm definitely ready for the seventh in the series.

I love a good mystery. And I love a good, intelligent, well-developed female protagonist (one because theyâ™re so rare and two because itâ™s a throwback to my youth when I inhaled Nancy Drew books like they were going out of style). In these requirements the Sarah Woods novels deliver and then some. Chock full of intrigue and action, these stories keep you on the edge of your seat. But more important is Sarahâ™s charisma as a protagonist. Sheâ™s savvy, sheâ™s confident, sheâ™s the kind of character you grow to care about. Of the three in this collection âœA Taste of Sinâ• had me the most captivated, but all three stories were wonderful and exciting. I definitely recommend this collection!

I would suggest reading books 1-3 first to keep things in perspective but that is just me. I found all of the Sarah Woods Mysteries to be very good. I am a Mystery lover who is easily bored so if I enjoy then they keep your attention. A hint of romance never hurts and a happy ending is preferable.

The stories were good mysteries and kept my interest. With a little editing could be a "clean read" appropriate for all ages. But the smattering of sexual dialogue and four letter words turned me off, was totally unnecessary, and added nothing to the books. I do not understand why authors feel it is necessary to ruin a perfectly good story with this junk added. Clean it up and I would give it five stars.

Three stories about a female novice private investigator. Entertaining enough to be worth reading, but really rather thin. Not a whole lot of character development, and the plots are rather simple.

Without knowing the actual word count, I would guess that they are closer to novella length than full length novels. And they unfortunately suffer from the lack of editing that is so common in self-published ebooks. Still, as long as you don't pay more than a couple of dollars for the set, you can pass a few enjoyable hours with them.

I really enjoyed Sarah Woods Mystery Series Books 4-6. Sarah has truly grown since books 103. Now divorced from Daniel and on her own. She has become what she was looking to be. She enjoys the adventures of working for Carter and of being with Max, when he is in town. She feels alive and is enjoying life. You'll enjoy these mysteries

The Mystery books were very good can not wait for book 7 to come out in November. She is very good as a detective. She finally got her license as a detective was a delight. It makes you love that she discovers who she is at 45, Hope her and Max stays happy,

Really good series. Cant put it down. Good plots and characters. Well worth purchasing. What more can I say. Try it.
