SHERLOCK HOLMES: The Complete Collection (Including All 9 Books In Sherlock Holmes Series)

SHERLOCK HOLMES

*The Complete
Collection*

By SIR ARTHUR CONAN DOYLE

Synopsis

Sherlock Holmes is a fictional detective of the late 19th and early 20th centuries, who first appeared in publication in 1887. He is the creation of Scottish born author and physician Sir Arthur Conan Doyle. A brilliant London-based detective, Holmes is famous for his intellectual prowess, and is renowned for his skillful use of deductive reasoning (somewhat mistakenly - see inductive reasoning) and astute observation to solve difficult cases. He is arguably the most famous fictional detective ever created, and is one of the best known and most universally recognizable literary characters in any genre. Conan Doyle wrote four novels and fifty-six short stories that featured Holmes. All but four stories were narrated by Holmes' friend and biographer, Dr. John H. Watson, two having been narrated by Holmes himself, and two others written in the third person. The first two stories, short novels, appeared in Beeton's Christmas Annual for 1887 and Lippincott's Monthly Magazine in 1890. The character grew tremendously in popularity with the beginning of the first series of short stories in The Strand Magazine in 1891; further series of short stories and two serialized novels appeared almost right up to Conan Doyle's death in 1930. The stories cover a period from around 1878 up to 1903, with a final case in 1914. In this collection you will find: A STUDY IN SCARLET The Sign of the Four THE HOUND OF THE BASKERVILLES The Valley Of Fear MEMOIRS OF SHERLOCK HOLMES THE RETURN OF SHERLOCK HOLMES A Collection of Holmes Adventures The Casebook of Sherlock Holmes THE ADVENTURES OF SHERLOCK HOLMES++ Arthur Conan Doyle-Biography link for further reading All in one elegantly formatted Book for ease of use and enjoyment on your Kindle device enjoy.

Customer Reviews

This is a beautiful, well constructed, and finely printed volume of the collected works of Sherlock Holmes. These are my impressions of the book (mostly good!):
THE PROS:
* It is a hardcover book with a cloth cover. It has an elegant houndstooth pattern and simple cover design (as shown in the picture). It also comes with a yellow ribbon bookmark and a slipcase for storage. Overall I think it's a really attractive book that would certainly catch my eye on the shelf. It's one of those book designs that makes you want to read it.
* The binding is cloth and seems to be very durable. Cloth bindings are, of course, commonly used on big books, such as bibles and dictionaries, that are large and heavy and need to last a long time. I think that's the goal with this volume as well.
* The book itself is quite large: approximately 10 inches tall, 7 inches wide, and nearly 3 inches thick. It's also fairly heavy owing to its thinnish pages. In my opinion, these attributes qualify as good things. The entire collected works are here in one volume, which I can keep in a single place on my bookshelf, and use as a single volume when I want to take the book on a trip or read the stories to my children. But I see that this is a matter of preference (see my "cons" section below).
* The text is printed on the small side, but I think it falls easily within the readable category (not always to be expected from a single volume edition of Sherlock!). See my photo for a better look.
* The paper is nice, in my opinion. It's not quite as thin or glossy as bible pages, but it's on the thin side. Any thicker and it could never fit into a single volume.
* The price is right.
