# Total Palmistry: The Love Connection

## Synopsis

Are you an Apollonian, independent and drawn to the opportunity to date and meet many people? Or is it Mercury that rules your heart, as you seek romance more for its comfort than its excitement? The key to these behavioral mysteries lays right in the palm of your hand--literally! Rafe Anderson has unlocked the ancient art of palm reading in a fun, interactive guide that will give readers hours of pleasure as they discover the unique attributes revealed by the mounds on their palms, the shapes of their fingertips, and the amount of hair on the back of their hands. Unlike most palmistry books that cover general palm reading topics in tireless detail, this book focuses on the individual palm being read for information about love interests, problems, and opportunities. The reader carefully answers each question that describes the palm being examined, and is then sent to the page that further describes their approach to life and gives insight into how they handle some of life's most significant romantic challenges. Each reading is completely unique! One reading leads to the next in this intuitive little book, where within minutes you'll be in tune with your true romantic qualities. But remember, your palm does not control your fate. Rather, it will help you learn to improve your shortcomings and work with your strengths in the romantic realm.

## Customer Reviews

An incredibly fun and easy to use guide to all things relating to your future -- through your palm. I wasn't a believer before, but when I recently received this book as a gift, a whole new world was opened to me. It is very simple to use and extremely insightful into the inclinations of your unconscious. Great gift for a wife or girlfriend.

It is a good coffee table book. It is cute and tailored to the individual reading it. It is not very in depth though and only takes a couple of minutes to get the answers to questions about your own palm. I would not recommend it for someone who wants to know all the ins and outs of palmistry but I would recommend it for someone who just wants to have a little fun with it. The title is a little deceiving though. It is definitely not "Total."

An easy to use and informative guide to your own inner psyche. I was initially suspect, but after five minutes I was sold on this fun, great book. Check it out or buy it for a special lady in your life.
