## Synopsis

"Welcome to our land, my brothers in the blood of the wolf. It was wise of you to approach us humbly, for we are generous and kind to those who do not draw our anger. Come and tell us stories of the beasts you have torn apart, the foes you have defeated, the men and women you have loved. And then we shall hunt together, host and guest, and we shall see who the dakini fear more."

## Customer Reviews

When I first heard about this book, I was thrilled, and I ran out to buy it the day it was released. While the first Lodges book focused mostly on Tribal Lodges, this book instead shows how Lodges can be adapted to different cultures, ideas, religions and places, giving a more local flavor to *Werewolf: the Forsaken*. Although there are a few Tribal Lodges presented in this book, most are multi-Tribal and very different from mainstream Uratha society. 22 new Lodges are presented from the far corners of the world - India, Germany, Poland, Japan, Antarctica, Africa, Mexico, Australia, France, Italy, the Middle East and beyond. Many hold beliefs or goals that put them at odds with more conservative or traditional Uratha, making them great antagonists, but they also can work as PCs too. And with a little work, they can be adapted to suit almost any chronicle. After an opening fiction, focusing on the Uratha of Bangladesh, and the obligatory introduction, we are treated to

short write-ups of all the Lodges. My thoughts as follows,\* Armeé Sauvage - Born out of the second World War, this Lodge of French Ghost Wolves tries to deal with supernatural fallout of human atrocities. A very interesting take on the Uratha's relations with human conflict, as well as showing how a Ghost Wolf Lodge works.\* Brotherhood of Eshu's Cap - A Lodge of African Hunters in Darkness who use stealth and trickery to protect important people, places and objects (including the Ark of the Covenant in Ethiopia!). Some very nasty examples of their work are included. Very cool to finally see an African Lodge, since the "Dark Continent" has gotten little coverage in Werewolf.
